Taishin Financial Holding Co., Ltd. and Subsidiaries

Consolidated Financial Statements for the Nine Months Ended September 30, 2020 and 2019 and Independent Auditors' Review Report

INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders Taishin Financial Holding Co., Ltd.

Introduction

We have reviewed the accompanying consolidated financial statements of Taishin Financial Holding Co., Ltd. ("Taishin Financial Holding") and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated balance sheets as of September 30, 2020 and 2019, the related consolidated statements of comprehensive income for the three months ended September 30, 2020 and 2019 and for the nine months ended September 30, 2020 and 2019, the consolidated statements of changes in equity and cash flows for the nine months then ended, and the related notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, the Regulations Governing the Preparation of Financial Reports by Financial Holding Companies, the Regulations Governing the Preparation of Financial Reports by Public Banks, the Regulations Governing the Preparation of Financial Reports by Securities Firms, the Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with the Statement of Auditing Standards No. 65 "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that caused us to believe that the consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of September 30, 2020 and 2019, its consolidated financial performance for the three months ended September 30, 2020 and 2019 and its consolidated financial performance and its consolidated cash flows for the nine months ended September 30, 2020 and 2019 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, the Regulations Governing the Preparation of Financial Reports by Financial Holding Companies, the Regulations Governing the Preparation of Financial Reports by Public Banks, the Regulations Governing the Preparation of Financial Reports by Public and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors' review report are Ching-Cheng Yang and Han-Ni Fang.

Deloitte & Touche Taipei, Taiwan Republic of China

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally applied in the Republic of China.

For the convenience of readers, the independent auditors' review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' review report and consolidated financial statements shall prevail.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2020 AND 2019 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise) (Reviewed, Not Audited)

1. GENERAL INFORMATION

Taishin Financial Holding Co., Ltd. ("Taishin Financial Holding" or the "Company") was established by Taishin International Bank Co., Ltd. ("Taishin Bank") and Dah An Commercial Bank Co., Ltd. ("Dah An Bank") pursuant to the Financial Holding Company Act in the Republic of China ("ROC") and related regulations through a stock swap on February 18, 2002. Taishin Financial Holding's main business activities are investing and managing its investments in financial institutions.

Taishin Bank and Dah An Bank established Taishin Financial Holding through a stock swap. In forming the holding company, Taishin Bank merged with Dah An Bank, with Taishin Bank as the surviving company. In addition, Taishin Securities Co., Ltd. ("Taishin Securities A") and Taishin Bills Finance Co., Ltd. ("Taishin Bills Finance") became wholly-owned subsidiaries of Taishin Financial Holding through a stock swap effective on December 31, 2002.

In order to better integrate the resources of the Company and its controlled affiliates, on December 19, 2009, the Company disposed of its wholly-owned subsidiary Taishin Securities A via a merger transaction of Taishin Securities A, as the dissolved company, and KGI Securities Co., Ltd. In addition, on January 22, 2011, Taishin Bank merged with Taishin Bills Finance. Hence, Taishin Bank acquired the whole assets and assumed all liabilities and operations of Taishin Bills Finance.

Taishin Bank started its business operations on March 23, 1992. Taishin Bank provides customers with general commercial banking services according to the Banking Act of the Republic of China.

Taishin Asset Management Co., Ltd. ("Taishin AMC") was established on August 14, 2002 in accordance with the Company Law and other related laws. Taishin AMC's operations include the acquisition, evaluation, auction, and management of delinquent loans.

Taishin Financial Holding acquired 100% equity interest of Franklin Insurance Brokers Co., Ltd. ("Franklin Insurance Brokers") by cash investments on April 27, 2011. Franklin Insurance Brokers became a subsidiary of Taishin Financial Holding and changed its company name to Taishin Holdings Insurance Brokers Co., Ltd. ("Taishin Holdings Insurance Brokers"). The business operations of Taishin Holdings Insurance Brokers include property insurance broker service and life insurance broker service. In order to integrate the group resources and effectively utilize capital to advance operational performance, the Company conducted an internal group restructuring. The Company intended to have Taishin Bank merged with Taishin Holdings Insurance Brokers. Therefore, on October 29, 2015, the board of directors of Taishin Bank (acting as stockholders of Taishin Bank) resolved that the surviving company was Taishin Bank and the dissolved company was Taishin Holdings Insurance Brokers. On December 30, 2015, the merger was endorsed by the Financial Supervisory Commission ("FSC"). The merger base date was on April 24, 2016. Taishin Bank paid in cash and assumed the overall assets, liabilities and operations of Taishin Holding Insurance Brokers took into consideration its audited net asset value on the merger base date. Taishin Bank paid in cash and assumed the overall assets, liabilities and operations of Taishin Holding Insurance Brokers.

Taishin Venture Capital Co., Ltd. ("Taishin Venture Capital") was approved for establishment on December 25, 2002. Its operations include engagement in investment start-ups.

Taishin Financial Holding acquired 100% equity interest of Taishin Securities Investment Trust Co., Ltd. ("Taishin Securities Investment Trust") and 92% equity interest of Taishin Securities Investment Advisory Co., Ltd. ("Taishin Securities Investment Advisory") by cash investments on July 26, 2010. Taishin Securities Investment Trust and Taishin Securities Investment Advisory became subsidiaries of Taishin Financial Holding.

Taishin Securities Investment Advisory was established in March 1989, and its operations include accepting mandates from customers, providing analytical opinions or recommendations on securities investment, acting as an agent for investment consultancy of offshore funds, issuing publications or holding lectures about securities investment and other relevant business permitted by the competent authority.

Taishin Securities Investment Trust obtained an approval from the Securities and Futures Bureau and was established on May 31, 2004. Its operations include offering securities investment trust funds, issuing certificate of beneficial interest and investing in or trading securities, securities-related products or other items approved by the FSC. In addition, Taishin Securities Investment Trust was approved to operate a full fiduciary discretionary investment business in 2005.

Taishin Securities Co., Ltd. ("Taishin Securities B") (formerly known as Donshin Securities Co., Ltd.) was incorporated on January 15, 1990, and its operations include services dealing with futures, securities underwriting, brokerage, margin lending and security transfer services. Taishin Financial Holding acquired 100% equity interest of Taishin Securities B by cash investments on April 9, 2010. Taishin Securities B became a subsidiary of Taishin Financial Holding.

Taishin Securities B acquired 100% equity interest in Tachong Securities Co., Ltd. ("Tachong Securities") via cash acquisition and assumed the net assets and operations of Tachong Venture Capital Co., Ltd. ("Tachong Venture Capital"), which was originally the subsidiary of Tachong Securities on August 28, 2017. After completing the aforementioned cash acquisition, the surviving company was Taishin Securities B, and Tachong Securities was dissolved accordingly.

Taishin Real-Estate Management Co., Ltd. ("Taishin Real-Estate") was established in August 1995, and its operations include audit and consultation of construction plans, contract verifications, assessments and trades of real estate, etc.

Xiang An Life Insurance Agency Co., Ltd. ("Xiang An Insurance Agency") was established in September 1996. It provides life insurance agency services. The record date of liquidation for Xiang An Insurance Agency was on July 17, 2020, and as of the approval date of these consolidated financial statements, the liquidation procedures have not been completed yet.

Taishin D.A. Finance was established in October 1997. Its operations include the lease, wholesale and retail sale of machinery, precision machinery, motor vehicles, aircrafts and vessels and their components.

Tachong Venture Capital was established in February 2013 and changed its name to Taishin Securities Venture Capital Co., Ltd. ("Taishin Securities Venture Capital") on October 2, 2017. It mainly engages in investments in start-up entities and consultancy services.

Taishin Capital Co., Ltd. ("Taishin Capital") was established in August 2019. It mainly engages in investments in start-up entities and consultancy services.

Taishin Financial Leasing (China) Co., Ltd. ("Taishin Financial Leasing (China)") was approved for establishment on July 12, 2011 to provide financial leasing services.

Taishin Financial Leasing (Tianjin) Co., Ltd. ("Taishin Financial Leasing (Tianjin)") was approved for establishment on March 1, 2012 to provide financial leasing services.

Within these consolidated financial statements, Taishin Financial Holding and its subsidiaries mentioned above are collectively referred to as the "Group".

In the year ended December 31, 2005, Taishin Financial Holding acquired 1,400,000 thousand shares of preferred stock B issued by Chang Hwa Commercial Bank, Ltd. ("Chang Hwa Bank") through private placements. The 22.55% ownership interest with voting rights allowed Taishin Financial Holding to control over half of the seats in the board of directors of Chang Hwa Bank. Accordingly, Taishin Financial Holding had controlling power over Chang Hwa Bank. On October 3, 2008, this preferred stock B was converted into 1,400,000 thousand shares of common stock. Chang Hwa Bank elected its board of directors on December 8, 2014, whereby Taishin Financial Holding obtained less than half of the seats of Chang Hwa Bank's board of directors. Therefore, Taishin Financial Holding lost its control over Chang Hwa Bank and afterwards did not account for Chang Hwa Bank as its subsidiary in accordance with the Financial Holding Company Act. The ownership interest with voting rights in Chang Hwa Bank held by Taishin Financial Holding and its subsidiaries was 22.81% as of September 30, 2020.

2. STATEMENT OF COMPLIANCE

The consolidated financial statements were prepared in accordance with the Regulations Governing the Preparation of Financial Statements by Financial Holding Companies, Regulations Governing the Preparation of Financial Reports by Public Banks, Regulations Governing the Preparation of Financial Reports by Securities Firms, Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants, Regulations Governing the Preparation of Financial Reports by Securities Issuers, and the International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission ("FSC").

3. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements of Taishin Financial Holding and its subsidiaries were approved by the Company's board of directors and authorized for issue on November 19, 2020.

4. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

a. Initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Financial Holding Companies, the Regulations Governing the Preparation of Financial Reports by Public Banks, the Regulations Governing the Preparation of Financial Reports by Securities Firms, the Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants, the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC) and SIC Interpretations (SIC) (collectively, the "IFRSs") endorsed and issued into effect by the FSC

Except for the following, the initial application of the amendments to the Regulations Governing the Preparation of Financial Reports and the IFRSs endorsed and issued into effect by the FSC did not have any material impact on the Group's accounting policies:

1) Amendments to IFRS 3 "Definition of a Business"

The Group applies the amendments to IFRS 3 to transactions that occur on or after January 1, 2020. The amendments require that for an entity to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. To judge whether the acquired process is substantive, there will be different judgment requirements depending on whether there is output on the acquisition date. In addition, the amendments introduce an optional concentration test that permits a simplified assessment of whether or not an acquired set of activities and assets is a business.

2) Amendments to IFRS 9, IAS 39 and IFRS 7 "Interest Rate Benchmark Reform"

Upon retrospective application of the amendments, the Group complied with the hedge accounting requirements under the assumption that the interest rate benchmark (such as the London Interbank Offered Rate or LIBOR) on which the hedged cash flows and cash flows from the hedging instrument are based will not be altered as a result of interest rate benchmark reform.

3) Amendments to IAS 1 and IAS 8 "Definition of Material"

The Group adopted the amendments starting from January 1, 2020. The threshold for materiality has been changed to "could reasonably be expected to influence the decisions of users" and, therefore, the disclosures in the consolidated financial report have been adjusted and immaterial information that may obscure material information has been deleted.

Except for the above impact, the Group assessed that the application of other standards and interpretations would have no impact on the Group's financial position and financial performance.

b. New IFRSs in issue but not vet endorsed and issued into effect by the FSC

| New IFRSs | Effective Date Announced by IASB (Note 1) |
|--|--|
| "Annual Improvements to IFRS Standards 2018-2020" | January 1, 2022 (Note 2) |
| Amendments to IFRS 3 "Reference to the Conceptual Framework" | January 1, 2022 (Note 3) |
| Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 | January 1, 2021 |
| "Interest Rate Benchmark Reform - Phase 2" | - |
| Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets | To be determined by IASB |
| between An Investor and Its Associate or Joint Venture" | |
| Amendments to IAS 16 "Property, Plant and Equipment - Proceeds | January 1, 2022 (Note 4) |
| before Intended Use" | |
| Amendments to IAS 37 "Onerous Contracts - Cost of Fulfilling a | January 1, 2022 (Note 5) |
| Contract" | |

- Note 1: Unless stated otherwise, the above New IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.
- The amendments to IFRS 9 will be applied prospectively to modifications and exchanges of Note 2: financial liabilities that occur on or after the annual reporting periods beginning on or after January 1, 2022. The amendments to IFRS 1 "First-time Adoptions of IFRSs" will be applied retrospectively for annual reporting periods beginning on or after January 1, 2022.
- Note 3: The amendments are applicable to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2022.
- Note 4: The amendments are applicable to property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after January 1, 2021.
- Note 5: The amendments are applicable to contracts for which the entity has not yet fulfilled all its obligations on January 1, 2022.

Except for the following, the initial application of the amendments to the Regulations Governing the Preparation of Financial Reports and the IFRSs endorsed and issued into effect by the FSC did not have any material impact on the Group's accounting policies:

1) Annual Improvements to IFRS Standards 2018-2020

Several standards, including IFRS 9 "Financial Instruments", were amended in the annual improvements. IFRS 9 requires to compare the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received, with that of the cash flows under the original financial liability when there is an exchange or modification of debt instruments. The new terms and the original terms are substantially different if the difference between those discounted present values is at least 10 per cent. The amendments to IFRS 9 clarify that the only fees that should be included in the above assessment are those fees paid or received between the borrower and the lender.

2) Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 "Interest Rate Benchmark Reform - Phase 2"

Several standards were amended in the amendments. The amendments to IFRS 9 and IFRS 16 provide specific practical expedient that the modification of financial assets, financial liabilities and lease liabilities as a result of interest rate benchmark reform shall be applied by revising the effective interest rate. Besides, the amendments to IFRS 9 introduce additional temporary exceptions for hedging relationships subject to interest rate benchmark reform.

The Group may not restate prior reporting periods when applying the aforementioned amendments, and recognize the cumulative effect in the retained earnings or other component of equity at the date of the initial application instead.

3) Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture"

The amendments stipulate that, when the Group sells or contributes assets that constitute a business (as defined in IFRS 3) to an associate or joint venture, the gain or loss resulting from the transaction is recognized in full. Also, when the Group loses control of a subsidiary that contains a business but retains significant influence or joint control, the gain or loss resulting from the transaction is recognized in full.

Conversely, when the Group sells or contributes assets that do not constitute a business to an associate or joint venture, the gain or loss resulting from the transaction is recognized only to the extent of the Group's interest as an unrelated investor in the associate or joint venture, i.e., the Group's share of the gain or loss is eliminated. Also, when the Group loses control of a subsidiary that does not contain a business but retains significant influence or joint control over an associate or a joint venture, the gain or loss resulting from the transaction is recognized only to the extent of the Group's interest as an unrelated investor in the associate or joint control over an associate or a joint venture, the gain or loss resulting from the transaction is recognized only to the extent of the Group's interest as an unrelated investor in the associate or joint venture, i.e., the Group's share of the gain or loss is eliminated.

4) Amendments to IAS 16 "Property, Plant and Equipment: Proceeds before Intended Use"

The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. The cost of those items is measured in accordance with IAS 2 "Inventories". Any proceeds from selling those items and the cost of those items are recognized in profit or loss in accordance with applicable standards.

The amendments are applicable only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after January 1, 2021. The Group will restate its comparative information when it initially applies the aforementioned amendments.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact that the application of other standards and interpretations will have on the Group's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

According to Order No. 1080323028, No. 1090361183 and No. 10902706971 issued by the FSC, the Group applied IFRSs and the related amendments to the Regulations Governing the Preparation of Financial Reports by Financial Holding Companies, which were approved by the FSC for 2020.

Except for the following, the accounting policies applied in these interim consolidated financial statements are the same as those in the annual consolidated financial statements for the year ended December 31, 2019. Refer to Note 5 to the consolidated financial statements for the year ended December 31, 2019 for related information.

Subsidiaries included in the consolidated financial statements for the nine months ended September 30, 2020 and 2019 are as follows:

| | Ownership Interest (%) | | | | | |
|---------------------------|---|---------------|--------------|---------------|--|--|
| . | a i · · v | September 30, | December 31, | September 30, | | |
| Investor | Subsidiary | 2020 | 2019 | 2019 | | |
| Taishin Financial Holding | Taishin Bank | 100.00 | 100.00 | 100.00 | | |
| Taishin Financial Holding | Taishin Securities B | 100.00 | 100.00 | 100.00 | | |
| Taishin Financial Holding | Taishin AMC | 100.00 | 100.00 | 100.00 | | |
| Taishin Financial Holding | Taishin Venture Capital | 100.00 | 100.00 | 100.00 | | |
| Taishin Financial Holding | Taishin Securities Investment Advisory | 92.00 | 92.00 | 92.00 | | |
| Taishin Financial Holding | Taishin Securities Investment Trust | 100.00 | 100.00 | 100.00 | | |
| Taishin Bank | Taishin Real-Estate | 60.00 | 60.00 | 60.00 | | |
| Taishin Bank | Xiang An Insurance Agency | - | 87.40 | 87.40 | | |
| Taishin Bank | Taishin D.A. Finance | 100.00 | 100.00 | 100.00 | | |
| Taishin AMC | Taishin Real-Estate | 40.00 | 40.00 | 40.00 | | |
| Taishin Venture Capital | Taishin Financial Leasing (China) | 100.00 | 100.00 | 100.00 | | |
| Taishin Venture Capital | Taishin Financial Leasing (Tianjin) | 100.00 | 100.00 | 100.00 | | |
| Taishin Securities B | Taishin Securities Venture Capital Co., Ltd | 100.00 | 100.00 | 100.00 | | |
| Taishin Securities B | Taishin Capital Co., Ltd (Note) | 100.00 | 100.00 | 100.00 | | |

Note: Xiang An Insurance Agency had started the liquidation procedures on July 17, 2020.

Retirement Benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

If a plan amendment, curtailment or settlement occurs, the current service cost and the net interest for the remainder of the annual reporting period are determined using the actuarial assumptions used for the remeasurement of the net defined benefit liabilities (assets).

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax. Income taxes accrued for the interim period are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

6. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

Except for the inclusion of the impact arising from the COVID-19 epidemic when considering the Group's critical accounting estimates, the critical accounting judgments and key sources of estimation uncertainty are the same as those previously applied in the annual consolidated financial statements for the year ended December 31, 2019. Refer to Note 6 to the consolidated financial statements for the year ended December 31, 2019 for related information.

7. CASH AND CASH EQUIVALENTS

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|---------------------|-----------------------|----------------------|-----------------------|
| Cash on hand | \$ 10,819,446 | \$ 12,162,721 | \$ 12,192,479 |
| Checks for clearing | 1,630,172 | 1,483,820 | 1,151,640 |
| Due from banks | 7,807,098 | 8,437,391 | 12,251,445 |
| Others | 2,196,354 | 2,084,600 | 1,585,930 |
| | <u>\$ 22,453,070</u> | <u>\$ 24,168,532</u> | <u>\$ 27,181,494</u> |

- a. Due from banks included time deposits that have a maturity of three months or less from the date of acquisition, are readily convertible to a known amount of cash, and are subject to an insignificant risk of change in value; these were held for the purpose of meeting short-term cash commitments.
- b. The loss allowance was measured at an amount equal to 12-month ECLs based on historical experience and forward-looking information; there was no allowance for loss on cash and cash equivalents as of September 30, 2020, December 31, 2019 and September 30, 2019.

8. DUE FROM THE CENTRAL BANK AND CALL LOANS TO BANKS

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|--|-----------------------|----------------------|-----------------------|
| Deposits reserve for checking accounts | \$ 19,662,753 | \$ 11,468,215 | \$ 10,145,900 |
| Deposits reserve for demand accounts | 37,180,184 | 34,272,031 | 33,954,308 |
| Deposits reserve for foreign deposits | 148,909 | 129,568 | 195,751 |
| Deposits transferred to the Central Bank | 95,207 | 50,103 | 67,915 |
| Call loans to other banks | 26,498,681 | 19,496,374 | 13,221,175 |
| Interbank clearing funds | 3,000,025 | 2,000,988 | 2,000,342 |
| | <u>\$ 86,585,759</u> | <u>\$ 67,417,279</u> | <u>\$ 59,585,391</u> |

The loss allowance was measured at an amount equal to 12-month ECLs based on historical experience and forward-looking information; there was no allowance for loss on due from the Central Bank and call loans to banks as of September 30, 2020, December 31, 2019 and September 30, 2019.

9. FINANCIAL INSTRUMENTS AT FVTPL

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|--|-----------------------|-----------------------|-----------------------|
| Financial assets mandatorily classified as at FVTPL | | | |

c. Details of call (put) warrants and fair value of repurchased call (put) warrants were as follows:

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|---|-----------------------|----------------------|-----------------------|
| Call (put) warrants issued | \$ 2,006,606 | \$ 4,270,808 | \$ 3,560,150 |
| Less: Loss (gain) on change in fair value | 93,031 | 206,547 | (340,016) |
| | 2,099,637 | 4,477,355 | 3,220,134 |
| Repurchased call (put) warrants | 1,630,755 | 4,097,274 | 3,435,385 |
| Less: Gain (loss) on change in fair value | 333,611 | 303,479 | (253,152) |
| | 1,964,366 | 4,400,753 | 3,182,233 |
| Net call (put) warrants issued | <u>\$ 135,271</u> | <u>\$ 76,602</u> | <u>\$ 37,901</u> |

The call (put) warrants which were issued by Taishin Securities B, are exercisable within six to eight months from the date listed on market and will be settled in cash or in securities at Taishin Securities' discretions.

The fair value of call (put) warrants was calculated using the closing price of the last transaction day on the balance sheet date.

d. Taishin Bank's unsecured USD senior bank debentures were as follows:

First unsecured USD senior bank debentures of Taishin Bank of year 2018, term of 30 years, US\$80,000 thousand, 100% of the principal amount of the bonds, put redemption on the fifth anniversaries of the debentures issued, and repayment of the holders at principal value plus accrued interests, maturity: July 5, 2048.

Second unsecured USD senior bank debentures of Taishin Bank of year 2018, term of 30 years, US\$20,000 thousand, 100% of the principal amount of the bonds, put redemption on the fifth anniversaries of the debentures issued, and repayment of the holders at principal value plus accrued interests, maturity: July 5, 2048.

The first unsecured USD denominated senior bank debentures issued by Taishin Bank in 2019, has a term of 5 years, a principal amount of US\$20,000 thousand, and no interest will be paid during the outstanding period. The debentures' maturity date is set at April 30, 2024, whereas the holders can exercise the put option asking Taishin Bank to redeem the full principal amount, plus the accrued interests, three months after the issuance date. Taishin Bank had redeemed the debentures on July 30, 2019.

Taishin bank considered unsecured USD senior bank debentures as financial instruments designated at FVTPL to eliminate the recognition inconsistency.

e. Taishin Securities B issued structured notes, which were approved by the Taipei Exchange, including principal guaranteed notes, equity-linked notes, fund-linked notes and credit-linked products. According to the contracts of principal protected notes, equity-linked notes and fund-linked notes, Taishin Securities B receives the principal amount of contracts or the agreed amount of proceeds from investors and will pay the settlement amount based on the contractual terms at maturity. The structured notes contain debt obligation and embedded options components and Taishin Securities B will earn profit arising from credit spread or market spread. The credit-linked products contain credit spread of convertible corporate bonds, which are derived from entering into asset swaps combined with fixed-income products sold to investors; Taishin Securities B receives the principal amount of contracts from investors and pays dividends in a fixed cycle. The credit-linked products provide more options for convertible assets and decrease the risks of holding convertible bonds of investors.

Taishin Securities B engages in the structured note transactions in order to diversify its financial instruments, to increase the source of profits and to provide alternative hedge positions in assets and improve the income stability as well as decrease the credit risk from holding assets.

10. FINANCIAL ASSETS AT FVTOCI

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|------------------------------|-----------------------|-----------------------|-----------------------|
| Debt instrument | | | |
| Investment in bills | \$ 40,677,123 | \$ 115,538,687 | \$ 132,546,700 |
| Bonds | 37,742,269 | 50,088,694 | 52,655,510 |
| Corporate bonds | 33,890,422 | 17,139,552 | 17,983,638 |
| Bank debentures | 78,965,314 | 85,420,494 | 89,713,822 |
| Beneficiary securities (a) | 681,748 | 610,937 | |
| - | 191,956,876 | 268,798,364 | 292,899,670 |
| Equity instrument | | | |
| Domestic and overseas stocks | 3,522,701 | 4,627,773 | 4,832,197 |
| | <u>\$ 195,479,577</u> | <u>\$ 273,426,137</u> | <u>\$ 297,731,867</u> |

- a. Beneficiary certificates are the asset-securitized products recognized by the Group, which are related to the equity of non-subsidiary's structured entities. The Group and other third parties provided the funds to such entities. However, the Group neither offered nor committed any financial support when participating in transactions involving the asset-securitized products.
- b. Because some equity instruments are held by the Group for long-term purposes and not for trading, which is reasonably reflected in the operating performance, equity instruments are classified as at fair value through other comprehensive income.

| | Stage 1 12-month ECLs | Stage 2 Lifetime ECLs - Not Credit-impaired | Stage 3 Lifetime ECLs - Credit-impaired | Total |
|--------------------|--------------------------|--|---|-----------|
| September 30, 2020 | \$ 37,881 | \$ 671 | \$- | \$ 38,552 |
| December 31, 2019 | 31,416 | 1,486 | - | 32,902 |
| September 30, 2019 | 33,354 | 1,486 | - | 34,840 |

c. The amount of the loss allowance for debt instruments was as follows:

As the Group's debt instruments at FVTOCI were measured using the ECL model, the Group had recognized (impairment loss) reversal of impairment loss on assets. Such (impairment loss) reversal of impairment loss amounted to \$550 thousand and \$(6,800) thousand for the three months ended September 30, 2020 and 2019, respectively, and amounted to \$(6,320) thousand and \$(8,930) thousand for the nine months ended September 30, 2020 and 2019, respectively.

- d. The Group sold the domestic common stock for strategic purposes. The stock sold had a fair value of \$2,877,354 thousand and \$1,237,040 thousand, and the Group transferred \$116,648 thousand and \$18,905 thousand of losses from other equity to retained earnings for the nine months ended September 30, 2020 and 2019, respectively.
- e. Refer to Note 43 for information relating to the management of credit risk and the impairment assessment on investments in debt instruments at FVTOCI.
- f. Refer to Note 45 for information relating to debt instruments at FVTOCI pledged as collateral.

11. DEBT INSTRUMENTS AT AMORTIZED COST

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|--------------------------------|-----------------------|-----------------------|-----------------------|
| Current | | | |
| Investment in bills | \$ 222,699,859 | \$ 116,250,000 | \$ 112,800,000 |
| Bank debentures | 21,293,341 | 12,524,096 | 12,292,632 |
| Corporate bonds | 3,204,876 | - | - |
| Government bonds | 3,091,255 | 3,119,322 | 12,158 |
| | 250,289,331 | 131,893,418 | 125,104,790 |
| Less: Allowance for impairment | (7,962) | (4,802) | (4,607) |
| | <u>\$ 250,281,369</u> | <u>\$ 131,888,616</u> | <u>\$ 125,100,183</u> |

a. The amount of the loss allowance for debt instruments was as follows:

| | Stage 1 12-month ECLs | Stage 2 Lifetime ECLs - Not Credit-impaired | Stage 3 Lifetime ECLs - Credit-impaired | Total | | |
|--------------------|--------------------------|--|---|----------|--|--|
| September 30, 2020 | \$ 7,962 | \$ - | \$ - | \$ 7,962 | | |
| December 31, 2019 | 4,802 | - | - | 4,802 | | |
| September 30, 2019 | 4,607 | - | - | 4,607 | | |

As the Group's debt instruments at FVTOCI were measured using the ECL model, the Group had recognized impairment loss on assets. Such loss amounted to \$2,241 thousand and \$479 thousand for the three months ended September 30, 2020 and 2019, respectively, and amounted to \$3,253 thousand and \$3,387 thousand for the nine months ended September 30, 2020 and 2019, respectively.

- b. Refer to Note 43 for information relating to the management of credit risk and the impairment assessment on investments in debt instruments at amortized cost.
- c. Refer to Note 45 for information relating to debt instruments at amortized cost pledged as collateral.

The Group received dividends from Chang Hwa Bank, which amounted to \$911,136 thousand and \$1,429,233 thousand during nine months ended September 30, 2020 and 2019, respectively.

2) Aggregate information of associates that are not individually material

| | For the Three Septem | | For the Nine Months Ended September 30 | | |
|---|----------------------|-----------------|---|-----------------|--|
| | 2020 | 2019 | 2020 | 2019 | |
| The Group's share of: Net profit for the period Other comprehensive income | \$ 2,791 | \$ 4,114 | \$ 5,599 | \$ 7,606 | |
| Total comprehensive income for the period | <u>\$ 2,791</u> | <u>\$ 4,114</u> | <u>\$ 5,599</u> | <u>\$ 7,606</u> | |

- b. On December 8, 2014, the Company filed a civil action against the Ministry of Finance ("MOF") of the ROC for its default in assisting the Company to secure a majority of seats in the board of directors of Chang Hwa Bank based on the contract, the previous orders from the Court are as follows:
 - 1) On April 27, 2016, the Taipei District Court ruled that there was a contractual relationship existing between the MOF and the Company.
 - 2) On May 17, 2017, the Taiwan High Court ruled that, as long as the MOF possesses the stocks of Chang Hwa Bank and the Company remains the largest stockholder of Chang Hwa Bank, the MOF should support the representatives appointed by the Company as they are elected to be the board members of Chang Hwa Bank by majority vote.
 - 3) On May 23, 2019, the Supreme Court reversed the original judgment that contained the existence of the contractual relationship and litigation expenses, and remanded this case to the Taiwan High Court.
 - 4) On August 21, 2020, the Taiwan High Court (first instance of remand) ruled that, as long as the MOF possesses the stocks of Chang Hwa Bank and the Company remains the largest stockholder of Chang Hwa Bank, the MOF should support (including but not limited to non-obstructive) the representatives appointed by the Company as four of them are elected to be the board members of Chang Hwa Bank. Both parties had filed appeals as they were not satisfied with the aforementioned judgement.
- c. The Group held less than 50% of the shares of Chang Hwa Bank and was the single largest shareholder. However, there are no other contractual arrangements to enable the Group to direct the relevant activities of Chang Hwa Bank. Furthermore, the distribution of voting rights and voting patterns at the previous shareholders' meetings showed that the Group was unable to obtain the right to appoint majority of the governing body of Chang Hwa Bank. Therefore, the Group determined that it did not have power and control over Chang Hwa Bank, and accounted for the investment as an associate.
- d. The Group's equity-method investments were not pledged as collateral as of September 30, 2020, December 31, 2019 and September 30, 2019.

15. OTHER MISCELLANEOUS FINANCIAL ASSETS, NET

a. The details of other miscellaneous financial assets items were as follows:

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|--|------------------------|------------------------|------------------------|
| Non-performing receivables transferred from other than loans Creditor rights | \$ 267,819 1 | \$ 351,875 1 | \$ 345,930 1 |
| Less: Allowance for bad debt Due from banks | (238,658) 7,259,944 | (338,388) 4,553,811 | (336,592) 5,295,035 |
| Deposits for borrowing securities Gold deposit account | 809,676 686,070 | 296,462 359,998 | 635,353 305,693 |
| Customer margin account | 665,927 | 313,104 | 389,941 |
| Guaranteed price deposits for securities borrowing | 73,359 | 8,433 | - |
| Others | 45,000 | <u> </u> | 861 |
| | <u>\$ 9,569,138</u> | <u>\$ 5,545,296</u> | <u>\$ 6,636,222</u> |

- b. The due from banks recognized under other miscellaneous financial assets held by the Group are time deposits with original maturities of more than 3 months or pledged as collateral. Refer to Note 45 for the information relating to the due from banks and time deposits pledged as collateral.
- c. Refer to Note 12 for the movements of the allowance for non-performing receivables transferred from other than loans and creditor rights for the nine months ended September 30, 2020 and 2019.
- d. The loss allowance is measured at an amount equal to lifetime ECLs per historical experience and forward-looking information; there was no allowance for loss on other miscellaneous financial assets excluding non-performing receivables transferred from other than loans and creditor rights as of September 30, 2020, December 31, 2019 and September 30, 2019.

16. INVESTMENT PROPERTIES, NET

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|--------------------------|-----------------------|----------------------|-----------------------|
| Investment properties | | | |
| Land | <u>\$ 679,808</u> | <u>\$ 621,103</u> | <u>\$ 602,979</u> |

For the nine months ended September 30, 2020, the number of stocks increased by 3,376 thousand shares due to employee's exercise of their employee stock options. In the shareholders' meeting on June 12, 2020, Taishin Financial Holding's shareholders had resolved the transfer of \$2,466,618 thousand of earnings to common stock and the ex-dividend date was set on August 17, 2020. The registration of the conversion had been completed.

b. In accordance with Article 8-2 of its Articles of Incorporation, the Company issued, via private placements, preferred stock D totaling 777,778 thousand shares, with a par value of NT\$10, at NT\$18 per share in the total amount of \$14,000,000 thousand on March 22, 2006. The Company proposed to reduce its issued and outstanding capital to make up for its accumulated deficit on December 4, 2009. In addition, the Company's board of directors resolved to redeem outstanding preferred stock D from 2016 to 2019. The shares of outstanding preferred stock D were all redeemed on March 25, 2019.

The rights and other important terms of issuance of the preferred stock D are as follows:

- 1) In accordance with the Company Act and Article 40 of the Articles of Incorporation of the Company, if there are earnings during the fiscal year, the earnings should be appropriated in the following order:
 - a) Payment of income taxes;
 - b) Make-up for prior year's losses, if any;
 - c) Legal reserve and if needed, special reserve;
 - d) Dividends to holders of preferred stock D.
- 2) The stock dividends are fixed at 6.5% per annum based on issue price and are distributed by cash in one-off payment. After the stockholders, in their meeting, approve the appropriation of the earnings of the fiscal year as proposed by the board of directors and resolve to distribute cash dividends from the earnings, the board of directors set the record date of preferred stock D for payment of dividends. Dividend is calculated based on the proportion of the number of days that the stocks are issued in a fiscal year, starting from the date of issuance to the record date of dividend.
- 3) If there are insufficient earnings in the fiscal year to fully pay off dividends for the stockholders of the preferred stocks, the unpaid dividend will not be carried forward to years with earnings.
- 4) In addition to receiving dividends at the fixed rate of dividend, the shareholders of the preferred stock D shall, subject to the resolution of the board of directors, be entitled to additional dividends. If dividends to common stocks are distributed in the same way as the preferred stock D and there are surplus earnings, for the purpose of dividend distribution, the preferred stock D will be converted to common stocks at the ratio of 2:1 with the right to participate in the distribution of dividends to common stocks, but not the distribution of capital surplus.
- 5) In the event of liquidation, the stockholders of preferred stock D shall be given priority to claim the Company's remaining assets over the stockholders of common stocks, but not more than the issuance amount of outstanding shares of preferred stock D.
- 6) The capital surplus from preferred stock D issued in excess of par cannot be used to increase its capital during the issuance of preferred stock D.
- 7) The stockholders of the preferred stock D are not entitled to any voting rights or election rights in stockholders' meeting. However, they can be elected as directors and have the right to vote in the stockholders' meeting and other agenda items concerning the preferred stock D.
- 8) When the Company issues new stocks in cash, the stockholders of preferred stock D and the common stock shall be entitled to equivalent preemptive rights on the new stocks.

- 9) Stockholders of the preferred stock D will be entitled to convert a share of preferred stock D into a share of common stock after three years from the issue date. After ten years from the issue date, the Company may, subject to the competent authority's approval, redeem a portion or all of the outstanding shares of preferred stock S at any time at the issue price. When the Company redeems the preferred stock D issued, the dividends payable shall be calculated at the ratio of the number of days outstanding from beginning of year up to the redemption date in proportion to total days in a fiscal year.
- 10) The existing stockholders' equity of the preferred stock D is based on the original terms of issuance. When the Company reduced capital to cover accumulated deficit, the issued shares of common stocks and all preferred stocks are cancelled in the same proportion. The stockholders' equity shall be adjusted according to the same proportion of the cancelled stocks in order to maintain the existing stockholders' equity of the preferred stock D.
- c. In accordance with Article 8-4 of its Articles of Incorporation, the Company issued preferred stock E, totaling 500,000 thousand shares, with a par value of NT\$10, at NT\$50 per share in the total amount of \$25,000,000 thousand on December 28, 2016. The issuance of stocks had been approved by the FSC under its Order No. 1050041849 issued on October 26, 2016, and the change in registration had been approved by the Ministry of Economic Affairs of the ROC under its Order No. 10501302230. The preferred stock E was listed on Taiwan Stock Exchange on February 10, 2017.

The rights and other important conditions of issuance of the preferred stock E are as follows:

- 1) Tenor: Perpetual.
- 2) Dividend yield: An annual dividend yield is set at 4.75% (7-year IRS 1.2175% + 3.5325%) per annum of the issue price at the pricing day. The 7-year IRS will be reset on the next business day after each seventh anniversary day after issuance and thereafter. The pricing date for reset is the second business day of financial industry in Taipei immediately preceding each reset date. The 7-year IRS rate is the arithmetic mean of 7-year IRS rates appearing on Reuters pages "PYTWDFIX" and "COSMOS3" at 11:00 a.m. (Taipei time) on the relevant pricing date for reset. If such rate cannot be obtained, the Company will determine the rate based on reasonable market price with good faith.
- 3) Dividend payment: If the surplus or earnings in the fiscal year are insufficient to fully pay off dividends to the stockholders of the preferred stocks, the unpaid dividend will not be carried forward to years with earnings. The Company has sole discretion on the distribution of the dividends of preferred stock E. Earnings distribution proposals will be devised by the board of directors in accordance with Article 40-1 of the Articles of Incorporation of the Company and then submitted to the annual general meeting of stockholders for acknowledgment. Earnings available for distribution to preferred stocks and common stocks under an acknowledged earnings distribution proposal will be distributed first to preferred stock D and then to preferred stock E, if any. Any remaining balance shall be distributed according to the Articles of Incorporation of the Company. The stock dividends are distributed by cash in one-off payment and are calculated based on the proportion of the number of days that the stocks are issued in a fiscal year. After the stockholders, in their meeting, approve the appropriation of the earnings of the fiscal year as proposed by the board of directors and resolve to distribute from the earnings cash dividends, the board of directors sets the record date of preferred stock E for payment of dividends. When the Company redeems the issued preferred stock E, the dividends payable shall be calculated at the ratio of the number of days outstanding from beginning of year up to the redemption date in proportion to total days in a fiscal year.
- 4) Restrictions on payment of dividends to common stocks: Except for the dividends prescribed in the preceding subparagraphs, the stockholders of preferred stock E are not entitled to participate in the distribution of cash or stock dividends with regard to the common stocks and other preferred stocks derived from earnings or capital reserves.

- 5) Redemption: After seven years from the issue date, the Company may, subject to the competent authority's approval, redeem a portion or all of the outstanding shares of preferred stock E at any time at the issue price. The rights and obligations associated with any remaining outstanding shares of preferred stock E shall continue as specified herein.
- 6) Liquidation preference: In the event of liquidation, the stockholders of preferred stock E shall be given priority to claim the Company's remaining assets over the stockholders of common stocks, but subordinate to the stockholders of preferred stock D, and not more than the issuance amount of outstanding shares of preferred stock E.
- 7) Voting rights or election rights: The stockholders of preferred stock E are not entitled to any voting rights or election rights in stockholders' meeting. However, they may vote in preferred stock E stockholders' meetings and in general stockholders' meetings with regard to agenda items concerning rights and obligations of the stockholders of preferred stock E.
- 8) Preferred stock E shall not be converted into common stocks. The stockholders of the preferred stocks shall not require the Company to redeem the rights of the preferred stock E.
- 9) When the Company issues new stocks in cash, the stockholders of preferred stock D and the common stocks shall be entitled to equivalent preemptive rights on the new stocks.
- d. In accordance with Article 8-4 of its Articles of Incorporation, the Company issued preferred stock E, totaling 300,000 thousand shares, with a par value of NT\$10, at NT\$50 per share in the total amount of \$15,000,000 thousand on November 30, 2018. The issuance of stocks had been approved by the FSC under its Order No. 1070329855 issued on September 6, 2018, and the change in registration had been approved by the ROC Ministry of Economic Affairs under its Order No. 10701153080. The preferred stock E was listed on Taiwan Stock Exchange on January 8, 2019.

The rights and other important conditions of issuance of the preferred stock E are as follows:

- 1) Tenor: Perpetual.
- 2) Dividend yield: An annual dividend yield is set at 3.80% (7-year IRS 1.1% + 2.7%) per annum of the issue price at the pricing day. The 7-year IRS will be reset on the next business day after each seventh anniversary day after issuance and thereafter. The pricing date for reset is the second business day of financial industry in Taipei immediately preceding each reset date. The 7-year IRS rate is the arithmetic mean of 7-year IRS rates appearing on Reuters pages "PYTWDFIX" and "COSMOS3" at 11:00 a.m. (Taipei time) on the relevant pricing date for reset. If such rate cannot be obtained, the Company will determine the rate based on reasonable market price with good faith.
- 3) Dividend payment: If the surplus or earnings in the fiscal year are insufficient to fully pay off dividends to the stockholders of the preferred stocks, the unpaid dividend will not be carried forward to years with earnings. The Company has sole discretion on the distribution of the dividends of preferred stocks E. Earnings distribution proposals will be devised by the board of directors in accordance with Article 40-1 of the Articles of Incorporation of the Company and then submitted to the annual general meeting of stockholders for acknowledgment. Earnings available for distribution to preferred stocks and common stocks under an acknowledged earnings distribution proposal will be distributed first to preferred stocks D and then to preferred stocks E, if any. Any remaining balance shall be distributed by cash in one-off payment and are calculated based on the proportion of the number of days that the stocks are issued in a fiscal year. After the stockholders, in their meeting, approve the appropriation of the earnings of the fiscal year as proposed by the board of directors and resolve to distribute cash dividends from the earnings, the board of directors set the record date of preferred stock E for payment of dividends. When the Company redeems the issued preferred stock E, the dividends payable shall be calculated at the ratio of the number of days

outstanding from beginning of year up to the redemption date in proportion to total days in a fiscal year.

- 4) Restrictions on payment of dividends to common stocks: Except for the dividends prescribed in the preceding subparagraphs herein, the stockholders of preferred stock E are not entitled to participate in the distribution of cash or stock dividends with regard to the common stocks and other preferred stocks derived from earnings or capital reserves.
- 5) Redemption: After seven years from the issue date, the Company may, subject to the competent authority's approval, redeem a portion or all of the outstanding shares of preferred stock E at any time at the issue price. The rights and obligations associated with any remaining outstanding shares of preferred stock E shall continue as specified herein.
- 6) Liquidation preference: In the event of liquidation, the stockholders of preferred stock E shall be given priority to claim the Company's remaining assets over the stockholders of common stocks, but subordinate to the stockholders of preferred stock D, and not more than the issuance amount of outstanding shares of preferred stock E.
- 7) Voting rights or election rights: The stockholders of preferred stock E are not entitled to any voting rights or election rights in stockholders' meeting. However, they may vote in preferred stock E stockholders' meetings and in general stockholders' meetings with regard to agenda items concerning rights and obligations of the stockholders of preferred stock E.
- 8) When the Company issues new stocks in cash, the stockholders of preferred stock D and of the common stocks shall be entitled to equivalent preemptive rights on the new stocks.
- e. Advance receipts for capital stock

As of September 30, 2020 and 2019, advance receipts for capital stock amounted to \$32,099 thousand and \$4,854 thousand, representing the proceeds from the exercise of employee stock options which were converted into 4,825 thousand shares and 701 thousand shares of common stock, respectively, of which the registration of the conversion has not been completed.

f. Capital surplus

As of September 30, 2020, the Company recognized a capital surplus of \$35,944,940 thousand, of which a part of investees' unappropriated retained earnings amounted to \$414,706 thousand. In addition to other regulations, Article 47 (d) of Financial Holding Company Act stipulates that the appropriation is not restricted by Article 241 (a) of the Company Act. Furthermore, the capital surplus from preferred stock E issued in excess of par cannot be transferred to its paid-in capital during the outstanding issuance periods of preferred stock E.

g. Retained earnings and dividend policy

In accordance with dividend policy of the Articles of Incorporation of the Company, whereas the Company makes profit in a fiscal year, the profit shall be first utilized for paying taxes, adjusted in accordance with accounting standards, offset losses of previous years, set aside 10% of the remaining profit as legal reserve, and set aside special reserve in accordance with the laws and regulations, distributed dividends to the stockholders of preferred stock D based on the Company's Articles of Incorporation clause 8-2; the dividend rate of the preferred stock E should not be more than 8% and the distribution plan based on the Company's Articles of Incorporation clause 8-2; the dividend rate of the preferred stock E should not be proposed by the Company's board of directors in their meeting before its being resolved in the stockholders' meeting, and then any remaining profit together with the amount of reversed dividend or special reserve available for distribution and any undistributed earnings at the beginning of the fiscal year shall be resolved by the Company's board of directors in their meeting as the basis for proposing a distribution plan, of which cash dividends should not be less than 10% of total dividends distributed, to common

stockholders and each class of preferred stockholders. The distribution plan should be resolved in the stockholders' meeting. However, under the requirements of the MOF, if the Group's capital adequacy ratio is less than 100%, dividends cannot be distributed in cash or other assets. For the policies on distribution of employees' compensation and remuneration to directors before and after the amendment, refer to employee benefits expense in Note 36.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's paid-in capital. Legal reserve may be used to offset deficit. If the Company has no accumulated deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital stock or distributed in cash.

Refer to h. for the information relating to special reserves.

The appropriations of earnings for 2019 and 2018 were approved in the stockholders' meetings on June 12, 2020 and June 14, 2019, respectively. The number of common stocks outstanding has changed because of the exercise of employee stock options; the actual appropriations are as follows:

| | Appropriatio | n of Earnings | | Per Share Γ\$) |
|--|---|--|----------------------|---------------------------|
| | For Year 2019 | For Year 2018 | For Year 2019 | For Year 2018 |
| Legal reserve Preferred stock D cash dividends Preferred stock E cash dividends Common stock cash dividends Common stock dividends | \$ 1,420,259 62,079 1,757,500 6,029,510 2,466,618 | \$ 1,242,125 293,194 1,237,473 5,306,652 2,170,903 | \$ - 0.57 0.23 | \$ - - 0.51 0.21 |

h. Special reserves

Taishin Financial Holding reclassified reserve for trading and default losses as of December 31, 2010 to a special reserve account, which is part of equity, in accordance with Order No. 10010000440 issued by the FSC.

Taishin Financial Holding appropriated special reserves in accordance with Order No. 1010012865 issued by the FSC and the Q&As on Special Reserves Appropriated Following Adoption of IFRSs.

In accordance with Order No. 1010045494 issued by the FSC, Taishin Financial Holding reclassified from the balance of reserve for business loss as special reserves under Article 11 of Value-added and Non-value-added Business Tax Act.

Taishin Financial Holding appropriated to special reserves an amount equal to the increase in retained earnings that resulted from recognizing gain on bargain purchase through acquisition in accordance with Order No. 10310006310 issued by the FSC.

Employees' Compensation and Remuneration of Directors

The Company accrues employees' compensation and the remuneration of directors at a rate of no less than 0.01% and no higher than 1%, respectively, of net profit before income tax, employees' compensation and remuneration of directors. For the three months ended September 30, 2020 and 2019 and the nine months ended September 30, 2020 and 2019, the amounts of employees' compensation and remuneration of directors were as follows:

| | | Months Ended nber 30 | For the Nine Months Ender September 30 | | | | |
|--|-----------------------------------|---|---|--|--|--|--|
| | 2020 | 2019 | 2020 | 2019 | | | |

If there will be a change in the amounts after the annual consolidated financial statements are authorized for issue, the differences will be recorded as a change in the accounting estimate and will be adjusted in the next year.

The Company held board of directors' meetings on March 26, 2020 and March 28, 2019 in which it resolved the appropriations of employees' compensation and remuneration of directors and which resulted in the actual amounts of the employees' compensation and remuneration of directors paid for 2019 and 2018 to differ from the amounts recognized in the consolidated financial statements for the years ended December 31, 2019 and 2018, respectively. The adjustment for differences will be and was recognized in profit and loss for the years ended December 31, 2020 and 2019.

| | For the Year Ended December 31 | | | | | | | | |

38. INCOME TAX

In 2003, Taishin Financial Holding adopted the linked tax system for tax filing (similar to a consolidated tax filling) along with its subsidiaries Taishin Bank and Taishin AMC. Taishin Venture Capital was included in this tax system since 2004, and Taishin Securities B, Taishin Securities Investment Trust and Taishin Securities Investment Advisory were included in this tax system since 2011.

In July 2019, the president of the ROC announced the amendments to the Statute for Industrial Innovation, which stipulate that the amounts of unappropriated earnings in 2018 and thereafter that are reinvested in the construction or purchase of certain assets or technologies are allowed as deduction when computing the income tax on unappropriated earnings.

Income Tax Recognized in Profit or Loss

The major components of tax expense (profit) were as follows:

| | For the Three Months Ended September 30 | | | | For the Nine Months Ended September 30 | |
|----------------------------------|--|-----------|-----------|-----------|---|---------------------|

The weighted average number of shares outstanding used for the earnings per share computation was adjusted retroactively for the issuance of bonus shares on August 17, 2020. The basic and diluted earnings per share adjusted retrospectively for the three months ended September 30, 2019 and the nine months ended September 30, 2019 were as follows:

| | | Months Ended er 30, 2019 | For the Nine Months Ended September 30, 2019 | |
|----------------------------|----------------|-----------------------------|---|---------------|
| | Before | After | Before | After |
| | Retrospective | Retrospective | Retrospective | Retrospective |
| | Adjustment | Adjustment | Adjustment | Adjustment |
| Basic earnings per share | <u>\$ 0.31</u> | <u>\$ 0.99</u> | <u>\$ 0.30</u> | |
| Diluted earnings per share | <u>\$ 0.31</u> | <u>\$ 0.99</u> | <u>\$ 0.30</u> | |

The earnings and weighted average number of common stocks outstanding used in the computation of earnings per share were as follows:

Net Income for the Period (In Thousands of New Taiwan Dollars)

| | For the Three Months Ended September 30 | | | | For the Nine Months Ended September 30 | |
|--|--|-----------|-----------|-----------|---|----------------------|
| | | 2020 | | 2019 | 2020 | 2019 |
| Net income for the periods attributable to owner of the | | | | | | |
| Company | \$ | 4,643,685 | \$ | 3,698,776 | \$ 11,763,254 | \$ 11,919,136 |
| Less: Dividends on preferred stocks | | (441,776) | | (442,986) | (1,315,724) | (1,376,593) |
| Earnings used in computation of basic earnings per share | | 4,201,909 | | 3,255,790 | 10,447,530 | 10,542,543 |
| Effect of potentially dilutive common stocks: | | | | | | (2.07 0 |
| Convertible preferred stocks | | | | | | 62,079 |
| Earnings used in computation of diluted earnings per share | <u>\$</u> | 4,201,909 | <u>\$</u> | 3,255,790 | <u>\$ 10,447,530</u> | <u>\$ 10,604,622</u> |

Weighted Average Number of Common Stocks Outstanding (In Thousands of Shares)

| | For the Three I Septem | | For the Nine Months Ended September 30 | |
|--|---------------------------|--------------------|---|-------------------------------|
| | 2020 | 2019 | 2020 | 2019 |
| Weighted average number of common stocks in computation of basic earnings per share Effect of dilutive potential common | 10,909,072 | 10,902,780 | 10,907,085 | 10,902,008 |
| stocks: Convertible preferred stocks Employees stock options Employees compensation | 1,548 37 | 5,752 <u>90</u> | 1,526 132 | 67,669 5,704 <u>119</u> |
| Weighted average number of common stocks outstanding in computation of dilutive earnings per share | <u>10,910,657</u> | <u>10,908,622</u> | <u>10,908,743</u> | <u>10,975,500</u> |

Since the Group offered to settle compensation or bonuses paid to employees in cash or stocks, the Group assumed the entire amount of the compensation or bonuses would be settled in stocks and the resulting potential stocks were included in the weighted average number of stocks outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential stocks is included in the computation of diluted earnings per share until the number of stocks to be distributed to employees is resolved in the following year.

40. SHARE-BASED PAYMENT ARRANGEMENTS

a. Equity-settled share-based payments of employee stock option plan

No stock options were granted during the nine months ended September 30, 2020 and 2019. Refer to Note 40 to the consolidated financial statements for the year ended December 31, 2019 for the information on the employee stock option plan.

The quantity and weighted-average exercise price of the stock options were as follows:

| | For the Nine Months Ended September 30 | | | | |
|--------------------------------|--|--|------|--|--|
| - | 2 | 020 | 2 | 019 | |
| | Unit | Weighted Average Exercise Price (Dollars) | Unit | Weighted Average Exercise Price (Dollars) | |
| <u>Plan of 2010 (II)</u> | | | | | |
| Outstanding, beginning balance | 307 | \$ 7.00 | 307 | \$ 7.30 | |
| Outstanding, ending balance | 307 | | 307 | | |
| Exercisable, ending balance | 307 | | 307 | | |

| | For the Nine Months Ended September 30 | | | | | |
|--|--|--|---------------------------|--|--|--|
| | 2 | 020 | 2 | 019 | | |
| | Unit | Weighted Average Exercise Price (Dollars) | Unit | Weighted Average Exercise Price (Dollars) | | |
| <u>Plan of 2010 (I)</u> | | | | | | |
| Outstanding, beginning balance Exercised Forfeited | 9,619 (6,595) (208) | \$ 6.90 6.72 6.80 | 14,104 (2,852) (28) | \$ 7.20 6.92 7.20 | | |
| Outstanding, ending balance | 2,816 | | 11,224 | | | |
| Exercisable, ending balance | 2,816 | | 11,224 | | | |

The weighted-average exercise price of stocks at the exercise dates of the stock options during the nine months ended September 30, 2020 was \$13.10.

The exercise price and expected weighted-average outstanding period of the stock option for the nine months ended September 30, 2020 were as follows:

| | For | For the Nine Months Ended September 30 | | | | | | |
|-------------------|----------------|--|-----------------------|----------------|--|--|--|--|
| | 20 | 20 | 2019 | | | | | |
| | | Expected | | Expected | | | | |
| | | Weighted | | Weighted | | | | |
| | | Average | | Average | | | | |
| | Exercise Price | Outstanding | Exercise Price | Outstanding | | | | |

| Plan of 2010 (I) | 6.50 | 0.03 | 6.90 | 1.04 | | | | |

The valuation model and the assumptions used in the employee stock option plan for the nine months ended September 30, 2020 were as follows:

| Valuation Model | Black-Scholes Options Pricing Model | Plan of 2010 (II) | Plan of 2010 (I) |
|-----------------|--|-----------------------------------|-----------------------------------|
| Assumption | Dividend yield Expected price volatility Risk-free interest rate | - 37.71%-39.71% 1.22%-1.52% | - 38.02%-38.73% 1.06%-1.23% |
| | Expected outstanding period | 10 years | 10 years |

No compensation costs were recognized for the three months ended September 30, 2020 and 2019 and for the nine months ended September 30, 2020 and 2019.

b. Cash-settled share-based payments of Taishin stock appreciation rights plan

The Group issued stock appreciation rights (SAR) to employees that required the Group to pay the intrinsic value of SAR to the qualified people at the date of exercise since 2013. The fair value of SAR was determined using the Black-Scholes pricing model based on the following assumptions:

| | Plan of 2019 | Plan of 2018 | Plan of 2017 | Plan of 2016 | Plan of 2015 |
|-------------------------------|----------------------|----------------------|---------------------|----------------|----------------|
| Grant-date share price (Note) | \$13.02 | \$13.02 | \$13.02 | \$13.02 | \$13.02 |
| Exercise price | \$13.51 | \$11.8 | \$11.71 | \$9.6 | \$8.3 |
| Outstanding period | 1.3 years, 2.3 years | 0.3 years, 1.3 years | 0.4 years | - | - |

42. CAPITAL RISK MANAGEMENT

a. Summary

To efficiently control the capital adequacy of the Group on the premise of balancing the Group's business development and risk control, Taishin Financial Holding had codified its "principles of capital adequacy management" and compile related information to be reported to the Asset and Liability Management Committee periodically.

The Group's goals in capital management are as follows:

- 1) To ensure the Group conforms to related capital adequacy regulations and minimum basic criteria set by each industry's regulatory agencies.
- 2) To ensure every subsidiary is able to meet the capital needs of operating plan and the capital requirement, as well as to reach the optimization of capital allocation within the Group.
- 3) To implement capital management, Taishin Financial Holding and its significant subsidiaries should assess capital adequacy periodically and make proper arrangements of capital structure and application of capital instruments and adjustments of asset portfolio.
- b. Capital management procedures

In order to meet the Group's capital adequacy goals, Taishin Financial Holding established the Asset and Liability Committee (the "Committee") to review capital performance of Taishin Financial Holding and its significant subsidiaries' every month. If there is any concern that the Group's capital adequacy may be below the legal standard, the Committee would immediately find measures to increase the Group's net qualified capital or to reduce the Group's legal capital requirement so as to improve the Group's performance and meet capital adequacy ratio. The Group's capital adequacy ratio is calculated based on the accounting reports and related data of capital adequacy provided by Taishin Financial Holding and its subsidiaries. Taishin Financial Holding and each of its subsidiaries should respectively report to the relevant regulatory agencies using the calculation formulas and forms according to the regulations before deadline.

43. FINANCIAL INSTRUMENTS

Fair Value of Financial Instruments

a. Summary

Fair value is the exchange price in an orderly transaction between market participants and is the amount to be received on the sale of an assets or the amount to be paid on the transfer of a liability.

Financial instruments are initially measured at fair value. In many cases, the transaction price will equal the fair value. Subsequently, the financial instruments are measured at fair value, unless the financial assets meet the criteria for being measured at amortized cost. A quoted price in an active market provides the most reliable evidence of fair value. If financial instruments have no quoted prices in an active market, the Group will use valuation techniques or refer to Bloomberg or Reuters' quotes or the fair value quoted by the counterparty.

- b. The definition of three levels of fair value
 - 1) Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Active markets must have the following attributes: (A) assets or liabilities traded in the market are identical, (B) the market is principal (or most advantageous), providing ease in finding buyers and sellers that are both able and willing to transact an asset sale or liability transfer; and (C) pricing information is readily available on an ongoing basis to the public.
 - 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as price) or indirectly (i.e., value derived from price), in the active markets.
 - a) Quoted prices of similar financial instruments in active market are the Company's fair value of financial instruments if based on recent quoted price for similar financial instruments. Similar financial instruments should be decided in accordance with characteristics and transaction conditions of these instruments. Fair value of financial instruments will vary depending on factors specific to the similar asset or liability. The factors include: Prices are not current, price quotations vary substantially, transaction price between related parties, relevance of quoted price of similar instruments and the quoted price of financial instruments.
 - b) Quoted prices for identical or similar assets or liabilities in markets that are not active.
 - c) Valuation models are used to measure fair value, and the inputs (e.g. interest rate, yield curve, and volatilities) are based on accessible data from the markets (the observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data).
 - d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means (market-corroborated inputs).
 - 3) Level 3 inputs are inputs that are not available in the market. Unobservable inputs are inputs such as historical volatilities used in option pricing model. Historical volatility typically does not represent current market participants' expectations about future volatility.

- c. Financial instruments measured at fair value
 - 1) Information on fair value hierarchy

The financial instruments measured at fair value of the Group are measured at fair value on a recurring basis.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

| | | Septembe | er 30, 2020 | |

2) The valuation techniques based on fair value

Financial instruments are initially measured at fair value. In many cases the transaction price will equal the fair value. Subsequently, the financial instruments are measured at fair value, unless the financial assets meet the criteria for being measured at amortized cost. A quoted price in an active market provides the most reliable evidence of fair value. If financial instruments have no quoted prices in an active market, the Group will use valuation techniques or refer to Bloomberg or Reuters' quotes or the fair value quoted by the counterparty.

If there is an active market and a price for a financial instrument quoted in that market, the quoted price will be the fair value of the financial instrument. Market prices provided by major stock exchanges and market prices of popular central government bonds announced by the Taipei Exchange (formerly the GreTai Securities Market) are considered to be the basis of fair values for equity instruments and debt instruments with active market.

If a quoted price, which represents the price being practically and frequently transacted in orderly transactions, can be acquired from stock exchanges, brokers, underwriters, pricing service institutions or the administration in time then there is an active market for the financial instrument. If the conditions mentioned above are not met, then the market is regarded as inactive. Generally speaking, extremely high bid-ask spread, significant increase of bid-ask spread or extremely low transaction amounts are all indications of an inactive market.

The Group's financial instruments with active markets and the basis of their fair values are described as follows:

a) Foreign currency products

Since the foreign exchange market is very active, the Group adopts the market prices of each respective currency or the last trading prices as fair values.

- b) Government bonds and part of interest rate derivatives
 - i. New Taiwan Dollar Central Government Bonds: If there is a trading price on the measurement date, then the last trading price is the fair value. If there is no trading price for reference and the subordinated bond fair price provided by the Taipei Exchange is not in the market quoted price interval, then the median price of the market quoted prices is the fair value. If the subordinated bond fair price is in the market quoted price interval, then the fair price is in the market quoted price interval, then the fair price is in the market quoted price interval, then the fair price is the fair value.
 - ii. Interest rate derivatives: The quoted price from Reuters is the fair value.
- c) Stock-related products

The Group adopts stock market quoted prices or the last trading prices as fair values.

Except for the financial instruments with active market, fair values of other financial instruments are acquired based on valuation techniques or the quoted prices from counterparties. Fair values acquired through valuation techniques can be calculated using models based on fair values from financial instruments with similar conditions and characteristics, cash flow discount method and other valuation techniques, including accessible information on the balance sheet date such as the yield curve from the Taipei Exchange or the average quoted price of interest rates for commercial papers from Reuters.

When measuring financial instruments that are not standardized and with low complexity such as options without active market, the Group will adopt valuation techniques consistent with those generally used by other market participants to price financial instruments. Parameters applied for the valuation models for this type of financial instruments are observable in the market.

With regard to financial instruments with high complexity, the Group will adopt self-developed valuation techniques and methods consistent with those generally used by other market participants and valuation models to measure fair values. These types of valuation models are often applied to derivatives, embedded bond instrument or securitized products, etc. Part of input parameters for the valuation models of this type of financial instruments are not observable in the market. Therefore, the Group makes appropriate estimates based on assumptions.

Valuation of derivatives is based on valuation models consistent with those generally used by other market participants, such as the discount rate method or the option pricing models.

Valuation of investments in equity instruments is based on generally used valuation methods, which are consistent with those described in the Statements of Valuation Standards (SVS) No. 11 "Business Valuation", such as the asset based approach (which is comparable to the market approach) and the market approach.

- 3) Adjustments of fair values
 - a) Limits of valuation models and indeterminate input value

Valuation models generate estimated approximate values. That is, valuation techniques may not be able to reflect all the factors relevant to the performance of the Group's financial instruments. Thus, the results generated by valuation models are adjusted appropriately by using additional parameters, such as determinants of fair value (prevailing economic conditions, financial condition of counterparties to financial instruments, etc.) or assumptions and forecasts (future economic conditions, amount and pricing of future cash flows, etc.). Based on Taishin Financial Holding's valuation basis manual and model management policies, the price information and parameters used in the valuation process are carefully assessed and appropriately adjusted in accordance with actual market conditions.

b) Credit risk value adjustments

Credit risk value adjustments are mainly classified into credit value adjustments (CVA) and debit value adjustments (DVA) as follows:

The CVA is an adjustment to the valuation of derivative contracts made in decentralized market, which is the over the counter (OTC) market, to reflect within fair value the possibility that the counterparty may default and that the Group may not receive the full market value of the transactions.

The DVA is an adjustment to the valuation of derivative contracts made in decentralized market, which is the over the counter (OTC) market, to reflect within fair value the possibility that the Group may default, and that the Group may not pay the full market value of the transactions.

The Group would calculate CVA by assessing probability of default (PD) and loss given default (LGD) of the counterparty before multiplying by exposure at default (EAD) of the counterparty. On the contrary, DVA is computed by applying probability of default of the Group and considering loss given default of the Group before being multiplied by exposure at default of the Group.

The Group manages PD through its regular internal rating review. After examining the experiences of foreign financial institutions, the Group adopted 60% as its LGD and chose the marking to market of OTC derivative instruments to determine EAD. In addition, in calculating the fair values of financial instruments, the Group took credit risk rating adjustments into consideration to reflect competitors' credit risk and the Group's credit quality, respectively.

4) The transfer between Level 1 and Level 2

Based on an internal risk control management policy, some of the New Taiwan dollar Central Government Bonds were determined as bond instrument investments with no active market. Thus, the bond values of \$3,898,947 thousand and \$1,509,611 thousand were transferred from Level 1 to Level 2 in the nine months ended September 30, 2020 and 2019, respectively.

5) Reconciliation of Level 3 financial assets

| | For the Nine Months Ended September 30, 2020 | | | | | | | | |

Note: No transfer from Level 3.

Abovementioned valuation gains (losses) recognized in current profits or losses in the amounts of \$501,516 thousand and \$900,699 thousand were attributed to gains on liabilities owned during the nine months ended September 30, 2020 and 2019, respectively.

6) Quantitative information of the fair value measurement of significant unobservable inputs (Level 3)

The Level 3 fair value attributed to the Group only has single significant unobservable input.

The quantitative information of significant unobservable inputs is as follows:

| | Fair Value on September 30, 2020 | Valuation Technique | Significant Unobservable Inputs | Range of Estimate | Relationship Between Inputs and Fair Value |
|---|--|---------------------------|---------------------------------------|----------------------|---|
| Non-derivative financial instrument | | | | | |
| Financial assets at FVTPL Financial assets mandatorily classified as at FVTPL | | | | | |
| Equity investments | \$ 2,254,983 | Assets method | Discount for lack of marketability | 1%-30% | The higher the discount for lack of marketability, the lower the fair value. |
| | | | Non-controlling interest discount | 2%-30% | The higher the non-controlling interest discount, the lower the fair value. |
| | 301,086 | Market method | Discount for lack of marketability | 10%-50% | The higher the discount for lack of marketability, the lower the fair value. |
| | 76,155 | Revenue method | Discount for lack of marketability | 30% | The higher the discount for lack of marketability, the lower the fair value. |

7) The assessment of fair value based on Level 3 inputs

The financial instruments assessment group of the Group's department of risk management is responsible for independently verifying fair value, using an impartial, reliable source of information, so that the evaluation results reflect market status closely, same with other resource and representing executable price calibrating the assessment model regularly, and updating input values, information and any other information needed to ensure that the assessment model results are reasonable.

The department of finance and the department of risk management set assessment policies and procedures for determining the fair values of financial instruments and ensure that these policies and procedures are in compliance with IFRS.

d. Not measured at fair value

1) Fair value information

In addition to the items listed below, the Group's assets that are not measured at fair value, such as cash and cash equivalents, due from the Central Bank and call loans to banks, securities purchased under resale agreements, receivables, other financial assets, loans, due to the Central Bank and banks, securities sold under repurchase agreements, commercial papers issued, payables, deposits and remittances, bonds payable, other borrowing and other financial liabilities have carrying amounts that are equal to, or reasonably approximate, their fair values.

| | September 30, 2020 | | December | r 31, 2019 | September 30, 2019 | |
|------------------------------------|--------------------|----------------|----------------|----------------|--------------------|----------------|
| Financial assets | Book Value | Fair Value | Book Value | Fair Value | Book Value | Fair Value |
| Debt instruments at amortized cost | \$ 250,281,369 | \$ 250,562,362 | \$ 131,888,616 | \$ 132,032,460 | \$ 125,100,183 | \$ 125,100,164 |

2) Information on fair value hierarchy

| Assets and Liabilities | September 30, 2020 | | | | | | |
|------------------------|--------------------|----|-----------|----------------|---------|---|--|
| Assets and Liabilities | Total | | Level 1 | Level 2 | Level 3 | | |
| Financial assets | | | | | | | |
| Debt instruments at | | | | | | | |
| amortized cost | \$ 250,562,362 | \$ | 1,518,043 | \$ 249,044,319 | \$ | - | |

| Agents and Liphilities | December 31, 2019 | | | | | | |
|------------------------|-------------------|---------|----------------|---------|--|--|--|
| Assets and Liabilities | Total | Level 1 | Level 2 | Level 3 | | | |
| Financial assets | | | | | | | |
| Debt instruments at | | | | | | | |
| amortized cost | \$ 132,032,460 | \$- | \$ 132,032,460 | \$ - | | | |

| Assets and Liabilities | | September 30, 2019 | | | | | | | |
|------------------------|----------------|---------------------------|----------------|---------|--|--|--|--|--|
| Assets and Liabilities | Total | Level 1 | Level 2 | Level 3 | | | | | |
| Financial assets | | | | | | | | | |
| Debt instruments at | | | | | | | | | |
| amortized cost | \$ 125,100,164 | \$ - | \$ 125,100,164 | \$- | | | | | |

3) Valuation techniques

- a) Financial instruments such as cash and cash equivalents, due from the Central Bank and call loans to banks, securities purchased under resale agreements, receivables, other miscellaneous financial assets, due to the Central Bank and banks, securities sold under repurchase agreements, commercial papers issued, payables, other borrowings and other miscellaneous financial liabilities, are disclosed at their carrying amounts as shown in the consolidated balance sheets since their maturities are very short or their future payments/receipts approximate their carrying amounts.
- b) Investments in debt instruments at amortized cost: Refer to Note 43 (c) for related information.
- c) Loans (including delinquent loans)

The Group's loan interest rate is usually determined based on the prime rate plus or minus basis points (i.e. the floating rate), which reflects the market interest rate. The expected recovery of loans is taken into consideration. Therefore, loans are disclosed at their carrying amounts.

Medium and long-term loans, which are determined at fixed rates and account for a minor proportion of loans, are disclosed at their carrying amounts.

d) Deposits

Considering that most of the banking transactions are within one year of maturity, deposits are disclosed at their carrying amounts.

e) Bonds payable

The bonds issued by the Group are intended to enhance liquidity or for capital management purpose instead of earning short-term profits; therefore, the bonds are disclosed at carrying amounts.

Financial Assets and Financial Liabilities Offsetting

Taishin Financial Holding signs net settlement contracts or similar agreements with counterparties. When both transaction parties choose to do netting, the Group can offset financial assets and financial liabilities after the signing of the net settlement agreement. If not, the Group would execute total settlement. However, if one of the transaction parties breaks a contract, the other party can choose to execute net settlement. The table below shows more information on the offset of financial assets and financial liabilities.

| September 30, 2020 Offset and Execution of Net Settlement or Similar Agreement on Financial Assets | | | | | | |
|---|----------------------------|---|--|--------------|-----------------------------|--------------------|

Note: Including net settlement and non-cash collateral.

Transfer of Financial Assets

Taishin Financial Holding treats debt securities under repurchase agreements as transferred financial assets that do not qualify for full derecognition; thus, the Group will recognize debts on the transferred financial assets to be bought back at a confirmed price because of the transfer of cash on the debt security contracts. In addition, the Group should not use, sell or pledge the transferred financial assets during the transaction validity period. However, the Group still bears interest and credit risks although the financial assets will not be fully derecognized. The following table shows the amounts of the financial assets that did not qualify for full derecognition and information on the related financial liabilities:

| September 30, 2020 | | |
|--|--|---|
| Financial Assets | Transferred Financial Assets - Book Value | Related Financial Liabilities - Book Value |
| Financial assets at FVTPL sold under repurchase agreement | \$ 62,692,476 | \$ 61,954,774 |
| Financial assets at FVTOCI sold under repurchase agreement | 41,747,883 | 32,759,561 |

| December 31, 2019 | | |
|--|--|---|
| Financial Assets | Transferred Financial Assets - Book Value | Related Financial Liabilities - Book Value |
| Financial assets at FVTPL sold under repurchase agreement | \$ 65,443,371 | \$ 68,251,143 |

| September 30, 2019 | | |
|--|--|---|
| Financial Assets | Transferred Financial Assets - Book Value | Related Financial Liabilities - Book Value |
| Financial assets at FVTPL sold under repurchase agreement | \$ 57,624,578 | \$ 58,755,059 |
| Financial assets at FVTOCI sold under repurchase agreement | 37,529,084 | 36,199,548 |

Financial Risk Management Objectives and Policies

a. Summary

The Group's goal in risk management is to balance the risks and returns by giving consideration to business operation, overall risk taken, and external legal restrictions. The major risks of the Group include in and off-balance-sheet credit risks, market risks (including interest rate, exchange rate, equity security prices, credit spread and commodity price risks) and liquidity risks.

Taishin Financial Holding has rules for risk management policies and risk control procedures, which had been approved by the board of directors, risk management committee or monthly risk management meeting, in order to effectively identify, measure, supervise and control credit risks, market risks and liquidity risks.

b. Organizational structure of risk management function

The board of directors is the highest level in the risk management function in the Company and takes the full responsibility for risk management issues and to examine policies and standards and establish risk management system. The chairman of the risk management committee takes charge of risk management and reports to the board of directors periodically.

Risk management department is independent of business department and identifies, assesses, and controls various risks according to risk management standards. In addition, internal auditing department is responsible for the independent review of risk management and internal control environment.

- c. Market risk
 - 1) The source and definition of market risk

Market risk arises from the uncertainty of changes in fair value of in and off-balance sheet financial instruments due to changes in market risk factors. Market risk factors include interest rates, exchange rates, equity security prices, credit spreads and commodity prices.

The main types of market risks of the Group are equity securities price risks, credit spread risks, interest rate risks, and exchange rate risks. The main types of equity securities risk include domestic public, OTC, and emerging market stocks, domestic stock index options and stock index futures. The main types of credit spread risk include the credit derivatives, such as credit default swaps, convertible bond asset swap (CBAS). The main types of interest rate risk include bonds and interest derivative instruments, such as interest rate swap. The main types of exchange rate risk include the Group's investments denominated in foreign currencies, such as foreign currency spots and foreign currency options.

2) Market risk management policy

The Group's risk management policy clearly defines the risk management procedures for risk identifying, risk measuring, risk controlling and risk reporting, which are executed by risk management department independently of trading and other departments. The risk management department develops management principles for different businesses and for various aspects of market risk management based on the risk management policy. It establishes market risk management system and regulates market risks, risk limits, stop loss limit and stress tests of various financial assets.

- 3) Market risk management procedures
 - a) Identifying risks and measuring possible effects

The Group's risk management department identifies the exposures of positions or new financial instruments to market risks and measures the gains and losses on positions held due to changes in market risk factors based on standards.

The risk management department calculates price sensitivity and gains and losses on positions which are recorded in trading books daily; and calculates the maximum potential losses recorded in each trading book monthly. The Group takes measures to avoid tremendous losses that will harm the Group's operations due to overwhelming changes in market risk factors.

b) Controlling of risk and reporting of issues

The Group controls market risk by managing risk limits. The risk management department sets various trading limits, such as position limits, stop-loss limits, and maximum potential loss. The trading limits are implemented only after they are reported to and approved by the board of directors.

The risk management department calculates exposures and estimated gains and losses on positions daily to make sure that the positions held and losses do not exceed the limits approved by the board of directors and prepares reports to the high-level management and the board of directors periodically for their sufficient understanding of the implementation of the market risk management work and, if necessary, issuance of additional guidance.

4) Trading book market risk management

Based on the related risk management standards, the Group classifies financial instruments into trading books and banking books according to the purpose of holding the instruments and manages them with different methods.

Trading book position consists of financial instruments for trading purpose or commodities held to hedge positions in trading books. A position, such as self-run position or position produced by matched principal brokering or market making, is for trading purpose if it is intended to be sold within a short period, to earn or to lock in profit from actual or expected short-term price fluctuations. Banking books are positions other than aforementioned trading book positions, consisting of medium to long-term equity investments and hedging positions to earn from the appreciation of values and dividends, bonds and notes investments and hedging positions to earn interests, positions held for fund dispatching, liquidity risk management, and banking book interest rate risk management purposes, and positions held for other management purposes.

Principles of trading book market risk management are as follows:

a) Management strategy

The goal of trading book market risk management is to pursue maximum return on capital, meaning maximizing the capital usage efficiency to improve stockholders' equity.

In order to control market risks, the risk management department sets risk limits for various investment portfolio based on trading strategies, category of trading products and annual profit goals in order to control exposure to risks on positions and losses.

b) Management principles

The Group stipulated "Principles of Market Risk Limit Management" to manage trading book limits.

c) Valuation gains and losses

If objective prices of financial instruments in various trading books exist in open market, such as trading prices, gains and losses on positions are valued in accordance with the market prices by the risk management department. If fair value data is inaccessible, the risk management department will cautiously adopt verified mathematical models to value gains and losses and review the assumptions and parameters of the valuation models periodically.

d) Risk measuring methods

The methods applied by the risk management department in measuring market risks are as follows:

- i. Measure the price sensitivity of various risk factors (i.e. Greeks), such as the effect on the valuations of foreign currency position of a 1% change in exchange rate or the effect on option position valuation due to changes in Greeks.
- ii. Refer to item 10 for the risk assumptions and calculation methods.
- iii. Measure potential losses resulting from extreme market volatility in order to assess capital adequacy and essential position adjustments.

5) Trading book interest rate risk management

a) Definition of interest rate risk

Interest rate risk is fair value changes in interest rate risk position held by the Group due to interest rate changes. The risks are mainly in debt securities and interest rate derivatives.

b) Measurement methods

The risk management department applies DV01 to measure interest risk. DV01 is the change in the value of interest rate risk positions when the yield curve moves upward by one basis point (1bp). Refer to item 10 for the risk assumptions and calculation methods.

c) Management procedures

The risk management department defines the interest rate related products that can be undertaken among trading book investment portfolio and set the total limit of DV01, the limit of DV01 in each time band and the stop-loss limits in order to control exposure risks on position losses. If the losses reach the stop-loss limit, then the trading department should decrease risk exposure positions to control losses.

- 6) Exchange rate risk management
 - a) Definition of exchange rate risk

Exchange rate risk is the gain or loss resulting from exchange or translation of two different foreign currencies at different times. The Group's exchange rate risk mainly arises from spot and forward exchange positions and forward exchange options.

b) Measurement methods

The risk management department applies Delta to measure the exchange rate risk of the first order change and applies Gamma to measure the exchange rate risk of the second order change. In addition, Vega is used to measure the first order risk of implied volatility rate. Moreover, the department calculates stress loss of risk position held. Refer to item 10 for the risk assumptions and calculation methods.

c) Management procedures

The risk management department sets the position limit and stop-loss limit of trading book investment combinations in order to control exchange rate risk. If the losses reach the stop-loss limit, the trading department should decrease risk exposure positions to control losses.

- 7) Equity security price risk management
 - a) Definition of equity security price risk

Equity security price risk is the valuation effect on the position held by the Group when the equity security price changes. The Group's equity security price risk mainly comes from public and OTC stocks, index futures and options.

b) Measurement methods

The risk management department calculates stress loss of risk position held, applies Delta to measure the independent equity security price risk of the first order change, or market value is applied to indicate the exposure risks on positions of stocks. Refer to item 10 for the risk assumptions and calculation methods.

c) Management procedures

The risk management department sets the position limit and stop-loss limit of trading book investment portfolio in order to control equity security price risk. If the losses reach the stop-loss limit, then the trading department should decrease risk exposure position to control losses.

- 8) Credit spread risk management
 - a) Definition of credit spread risk

Credit spread risk is the risk of the effect of changes in credit spreads on positions held by the Group. The major risk comes from derivatives such as credit default swaps.

b) Measurement methods

The risk management department applies CS 01, which is the impact of the changes in fair value of a position in response to a one basis point (1bp) credit spread change, and calculates the pressure loss of risk positions held by the Group. Refer to item 10 for the risk assumptions and calculation methods.

c) Management procedures

The risk management department sets the position limit and stop-loss limit of trading book investment portfolios in order to control credit spread risks. If the losses reach the stop-loss limit, then the trading department should decrease the risk exposure position to control losses.

9) Banking book interest rate risk management

Taishin Bank

Banking book interest rate risk involves bonds, bills and their hedge positions, which are held to manage the Bank's liquidity risk and the interest rate risk of deposits and loans undertaken by business departments. The interest rate risk is transferred to banking book management department for centralized management through internal fund transfer pricing (FTP) system. Banking book interest rate risk is the effect on net interest income of risk exposure positions held due to changes in interest rate. There is no secondary market for loan transactions and the purpose of holding banking book investment position is to establish deposit reserve. This is different from short-term holding for pursuing profit in trading book. Banking book interest rate risks are regulated separately by the risk management department.

a) Management strategy

The goal of banking book interest rate risk management is to control interest rate risk position and pursue stability and growth of banking book net interest income under the circumstances that liquidity is appropriate.

b) Management principles

Taishin Bank stipulated "The Principles of Banking Book Interest Rate Risk Management" as the important control regulations for banking book interest rate risk management.

c) Measurement methods

The banking book interest rate risk is the risk of quantitative or repricing term differences due to the differences in amounts and maturity or repricing dates of banking book assets, liabilities and off-balance-sheet items. Taishin Bank measures the effect on net interest income when the yield curve moves upward by 1bp. Refer to Item 10 for the risk assumptions and calculation methods.

d) Management procedures

Taishin Bank defines the instruments of banking book interest rate management and sets the limit of interest rate risk in order to avoid severe recession of net interest income when the interest rate changes unfavorably. The banking book management unit sets limits and keeps the interest rate risk within the limits.

10) Methods for measuring market risk

Taishin Bank

a) Stress test

A stress test is applied to measure loss under extremely unfavorable market circumstances in order to assess financial institutions' tolerance to extreme market volatility.

The risk management unit is required to execute the stress test at least once a month to calculate trading book stress loss. The risk management unit observes historical information of market price and sets the biggest possible volatility range for various market risk factors as the stress circumstance, which should be approved by the risk management committee. Since there are so many market risk factors that affect trading book position, there might be plenty of permutation and combination of stress circumstances when the unit calculates stress loss. For instance, change in a market risk factor might result in the biggest loss of one investment portfolio but create profits for another investment portfolio. Based on the conservative principles, the risk management unit will take into account correlation between various risk factors to calculate the biggest loss as the stress loss.

The risk management unit should confirm that overall trading book loss does not exceed the stress loss limit and report to the high-level management as references for adjusting positions or resource distributions.

b) Value at risk, "VaR"

Taishin Bank uses a variety of methods to control market risk, such as VaR. Taishin Bank is using risk model to assess the value of trading portfolios and potential loss amount of holding positions. VaR is Taishin Bank's important internal risk control system, and the board of directors reviews and establishes trading portfolio's limits annually. Actual exposures of Taishin Bank are monitored daily by risk management.

VaR is used to estimate adverse market potential loss of existing positions. The VaR model uses historical simulation method, a one-year historical observation period, the estimate of 99% confidence interval, the maximum possible amount of loss holding positions for one day, and the probability that actual losses may exceed the estimate.

| | For the Nine Months Ended September 30, 2020 | | | | |
|-----------------------|--|-----------|----------|-------------------|--|
| | Average | Highest | Lowest | Ending Balance | |
| Exchange VaR | \$ 4,749 | \$ 75,675 | \$ 1,113 | \$ 3,074 | |
| Interest rate VaR | 51,957 | 128,188 | 30,164 | 40,375 | |
| Equity securities VaR | 57,969 | 94,502 | 18,065 | 75,828 | |
| Credit spread VaR | 4,352 | 8,983 | 1,289 | 1,628 | |
| Value at risk | 91,740 | 152,968 | 34,843 | 98,441 | |

| | Average | Highest | Lowest | Ending Balance |
|-----------------------|----------|----------|----------|-------------------|
| Exchange VaR | \$ 3,208 | \$ 9,190 | \$ 1,026 | \$ 2,097 |
| Interest rate VaR | 31,465 | 48,247 | 21,036 | 23,806 |

| Value at risk | 50,859 | 62,226 | 38,394 | 50,533 |

For the Nine Months Ended September 30, 2019

c) Information of exchange rate risk concentration

For information regarding Taishin Bank's non-functional currency financial assets and liabilities on the balance sheet date, refer to Note 51.

Taishin Securities B

VaR is the highest potential loss for a period within a certain confidence interval. For the nine months ended September 30, 2020 and 2019, Taishin Securities B's VaR factors were as follows:

| | For the Nine Months Ended September 30, 2020 | | | |
|---------------------|--|----------------|----------------|-------------------|
| | Average | Highest | Lowest | Ending Balance |
| Value at risk (VaR) | \$ 132,069 | \$ 156,631 | \$ 79,566 | \$ 79,566 |
| | For the | Nine Months Er | nded September | 30, 2019 |
| | Average | Highest | Lowest | Ending Balance |
| Value at risk (VaR) | \$ 53,707 | \$ 73,140 | \$ 33,953 | \$ 49,974 |

d. Credit risk

1) Source and definition

Credit risk means the possible loss due to failure of debtors or counterparties to fulfill their contractual obligations or their ability of fulfill contractual obligations is impaired. Credit risk arises from the operation, on- and off-balance-sheet items, including credit loans, derivatives transactions and securities investment, etc. Because the business becomes more complex, the credit risk is often generated with other risks that affect one another. For example, exchange rate risk also exists in foreign currency debt investment. Secured loans will be affected by the price volatility on the collateral and market liquidity risk of the collateral.

Credit risk can be divided into the following categories based on the object and nature of business:

a) Credit risk

Credit risk is the risk that a borrower is unable to pay its debt or fulfill its debt commitments in credit loans operation.

b) Issuer (guarantor) risk of the underlying issue

It is the credit risk that stock issuers go into liquidation or are unable to pay back money when debt, bills and other securities matured.

c) Counterparty risk

It is the credit risk that the counterparty undertaking OTC derivatives or RP/RS transactions are unable to fulfill settlement obligations.

Counterparty risk is also divided into settlement risk and pre-settlement risk.

i. Settlement risk

It is the loss resulting from the counterparty failing to deliver goods or money on the settlement date when the Group had fulfilled settlement obligations.

ii. Pre-settlement risk

It is the loss resulting from the counterparty failing to fulfill settlement or pay the obligations and from changes in market prices before the settlement date.

d) Other credit risks

Country risk, custodian risk and brokers risk, etc.

2) Credit risk management policies

Taishin Bank

To ensure its credit risk under control within the tolerable range, Taishin Bank has stipulated in the guidelines for risk management that for all the products provided and businesses conducted, including all on- and off-balance sheet transactions in the banking and trading books, Taishin Bank should make detailed analyses to identify existing and potential credit risks. Before launching new products or businesses, Taishin Bank ensures compliance with all applicable rules and regulations and identifies relevant credit risks. For sophisticated credit extensions, such as accounts receivable factoring and credit derivative instruments, Taishin Bank also establishes risk management system described in the related rules and guidelines.

Unless the local authorities regulate the assessment of asset qualities and provision for potential losses of the overseas business department, it is in accordance with Taishin Bank's risk management policies and guidelines.

The measurement and management procedures of credit risks in Taishin Bank's main businesses are as follows:

a) Credit granting business (including loans and guarantees)

Classification of credit assets and level of credit quality is summarized as follows:

i. Credit risk rating

For risk management purposes, Taishin Bank rates credit qualities (by using internal rating models for credit risk or credit score tables) in accordance with the nature and scale of a business.

The corporate finance department's internal rating adopts two aspects. One is obligor risk rating (ORR) and the other is Facility Risk Rating (FRR). ORR is used to assess the possibility of the debtor performing financial commitments, which is a quantitative value based on the probability of default (PD) within one year. FRR is used to assess the effect of rating structures and collateral conditions on credit rating, which is a quantitative value based on loss given default (LGD). At the same time, experts also engage in judging and adjusting the rating overrides of statistic models to make up for the shortage of the model.

The consumer finance department's internal rating system adopts product characteristic and debtor condition (such as new case or behavior grading) as the basis of segmentation. It is to ensure that the same pools of debtors and risk exposure are homogeneous. At the same time, review of loans based on experts' override is complemented to make up for the limitation of the model.

ii. The measurement of ECLs

At the end of the reporting period, Taishin Bank evaluates the risk of default occurring over the expected life of loans, to determine if the credit risk has increased significantly since original recognition. In order to perform this evaluation, Taishin Bank considers the information regarding whose credit risk has significantly increased since the respective loan's initial recognition as well as corroborative information (including forward-looking information). The key indicators include quantitative indicators such as changes in internal and external credit ratings, overdue conditions (such as being more than one month overdue), etc., as well as qualitative indicators such as a worsening of debt paying ability, unfavorable changes in operating financial and economic conditions and significant increases in credit risk of borrowers' other financial instruments. At the end of the reporting period, Taishin Bank assumes that the credit risk has not increase significantly for those whose credit risk is determined to be low.

Taishin Bank has the same definition of default on credit assets and credit impairment. The evidence of credit losses on financial assets includes overdue conditions (e.g. past due for more than three months) and significant financial distress of the borrower. The definitions of default and credit impairment are consistent with the definitions of the financial assets for the purpose of internal credit risk management, which are also used in the relevant impairment assessment model.

In order to assess the ECLs, the loans will be assessed in groups based on the nature of the products, borrowers' credit ratings and collateral, and the Group takes into consideration each borrower's probability of default (PD), loss given default (LGD) and exposure at default (EAD) for the next 12 months and for the lifetime of the loan and considers the impact of the time value of money in order to calculate the ECLs for 12 months and for the lifetime of the loan, respectively.

The PD and LGD used in the impairment assessment are based on internal historical information (such as credit loss experience) of each combination and are calculated based on current observable data and forward-looking general economic information.

Taishin Bank assesses the EAD, PD and LGD using the current exposure method, the group estimating method and the recovery rate adjustment method, respectively. When assessing internal credit ratings, the Group takes factors into account to adjust PD as follows: It considers the respective borrower's future financial and business prospect, guarantors, stockholders and group's backgrounds, as well as the forward-looking effects of environmental changes in the economy, markets and regulations in corporate finance; and it considers overall economic indicators (e.g. gross domestic product (GDP)) that are adjusted according to the asymptotic single risk factor (ASRF) model.

There was no significant change in valuation techniques and major assumptions used to assess the ECLs of the loans by Taishin Bank in 2020 and 2019.

In addition to the aforementioned assessment procedures, which classify loans in accordance with the Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans, the loans are classified into five categories for evaluation. Except for normal loans, the remainders are classified into the first category. After the assets are assessed on the basis of the guarantee status of the claims and the length of the time overdue, they are respectively classified within the remaining categories according to the probability of recovery as follows: The second category is for notable assets; the third category is for assets which are expected to be recovered; the fourth category is for assets which will be difficult to recover; and the fifth category is for assets for which recovery is considered no longer possible. The highest values of the aforementioned evaluation results are taken to measure the allowance for loss.

In order to manage problematic loans, procedures are adopted for the reorganization of loan loss provisions, the allowance for bad debt or guarantee liability provisions, the measurement of overdue loans and the collection of default loans. In the management of loans, Taishin Bank is also guided by the Regulations Governing the Procedures for Corporation Credit Businesses to Evaluate Assets and Deal with Non-performing Assets, Measures for Corporation Credit Businesses to Be Taken When Credit Extensions Become Past Due and Regulations Governing Collection Procedures, Regulations Governing the Procedures for Consumer Finance to Evaluate Assets and Deal with Non-performing Assets, Regulations Governing the Procedures for Overdue Loans, Non-accrual Loans and Doubtful Loans.

iii. Write-off policy

Overdue loans and non-accrual loans for which one of the following events have occurred should have the estimated recoverable amount deducted and should then be written off as bad debts.

- The debtor may not recover all or part of the obligatory claim due to dissolution, disappearance, settlement, bankruptcy or other reasons.
- The appraisal of the collateral, the property of the principal debtor and the surety is low, or the amount of the loan's priority is deducted, or the collection implementation costs may approach or exceed the amount that Taishin Bank can repay, or the loan is not able to be collected.
- The property of the principal debtor and the surety were auctioned off at multiple auctions, no one was required to buy it and Taishin Bank did not bear the benefit.
- Overdue loans and non-accrual loans, which have been overdue for more than two years have been collected but have not been received.

However, for overdue loans and non-accrual loans which have been overdue for more than three months but less than two years, after the collection has not been recovered and after deducting the recoverable portion, the remainder will be written off as bad debts.

Loans are written off in accordance with relevant regulations and procedures; the activities of the principal debtor and the surety from obligatory claims shall be monitored by the relevant business department. If there is any property available for enforcement, the Group shall prosecute according to the relevant laws.

If an evaluation determines that there is no benefit to be gained from the collection activities described in the preceding paragraph, such shall be reported to and approved by the board of directors, and the debt shall no longer be posted in the accounts and subject to control; however, such debt shall continue to be recorded in registry books for acknowledgement.

b) Due from and call loans to banks

Taishin Bank evaluates the credit status of counterparties before deals are closed. Taishin Bank grants different limits to the counterparties based on their respective credit ratings as suggested by external qualified credit rating agencies.

c) Security investment and financial derivatives transaction

Regarding the credit risk of security investments and financial derivatives, Taishin Bank manages the risk by assessing the internal credit rating of issuers, issued underlying assets, counterparties, and by external credit rating of debt instruments and counterparties or status of regions/countries.

The other banks with which Taishin Bank conducts derivative transactions are mostly considered investment grade. The credits extended to counterparties that are not rated as investment grade are assessed on a case-by-case basis. The credits extended to counterparties are monitored in accordance with the related contract terms and conditions, and the credit limits for derivatives established in normal credit granting processes. Meanwhile, Taishin Bank has set the total position limit on trading and banking book securities and each issuer's limit based on credit ratings.

The Group assesses the change in risk of default over the expected lifetime of investments in debt instruments as of the end of the reporting period, to determine whether there has been a significant increase in credit risk since initial recognition. In order to make this assessment, the Group considers reasonable indicators of a significant increase in credit risk since initial recognition and corroborative information (including forward-looking information). The main indicators include quantitative indicators, such as external credit ratings, qualitative indicators, such as weakening solvency from adverse changes in operating, financial and economic conditions, and a significant increase in credit risk of the issuer's other financial instruments. Where the Group determines that the credit risk is low as of the reporting date, it will assume that the credit risk will not have a significant increase.

The Group defines default of investments in debt instruments and credit impairment as the same. Evidence of financial asset credit impairment includes external credit ratings and the issuers experiencing severe financial difficulties. The definitions of default and credit impairment apply to the relevant impairment assessment model.

Based on credit assessment charts, the Group manages the internal and external credit assessment of debt instruments according to Moody's long-term credit ratings. Credit risk is significantly increased if:

- i. The rating is over Baa3 on the initial recognition date, and the rating is lower than Ba1, not including ratings of Ca-D on the measurement date.
- ii. The rating is Ba1-Ba3 on the initial recognition date, and the rating is downgraded to B1-Caa3 on the measurement date.
- iii. The rating is B1-Caa3 on the initial recognition date.

A loan is considered to have been defaulted on if the rating is Ca-D on the measurement date.

The trading department should monitor the credit position of investments in debt instruments. Once it knows that the issuer, guarantor or issued underlying has a credit event (such as a downgrade of credit ratings to non-investment grade, a discharge or a default), it should notify the relevant department immediately and dispose of the investments in debt instruments.

In order to assess the purpose of the ECLs, debt instruments are assessed by grade based on their credit rating. In order to measure the ECLs, the default probability of the issuers is considered, the PD, LGD, EAD for the next 12 months and over the full lifetime of the debt instruments shall be considered, and the impact of the time value of money shall be considered. From this, the 12-month and full-lifetime ECLs shall be calculated separately.

The Group assesses the EAD of investments in debt instruments using the current exposure method (CEM) and adopts external rating information, PD and LGD which are announced periodically by international credit rating agencies (S&P and Moody's) to calculate the ECLs.

Due to international credit rating agencies already considering the prospective information, it is appropriate to assess such information and then include it in the assessment of the related ECLs of the Group.

The Group evaluated that the assessment techniques or material assumptions of the ECLs for investments in debt instruments had no material change in 2020 and 2019.

Leasing subsidiaries

The Group adopts the simplified approach to assess the allowance for lease receivables based on their lifetime ECLs. In order to measure the loss allowance, the combination by past due positions is classified, the rating of losses are evaluated using the provision matrix approach, and the EAD of applicants is considered. With this and the impact of time value of money, the lifetime ECLs are calculated.

To loss ratings used in the impairment assessments are calculated based on internal historical data (such as credit loss experience) for each group and on currently observable data, which is adjusted according to prospective general economic data.

The Group evaluates EAD using the book amount of lease receivables and assess the loss ratings using the recovery rate adjusted method. The Group uses economic indicators such as prospective data to adjust loss ratings using the standard deviation method. The Group uses Taiwan's composite leading index and the OECD/China's composite leading indicators as the basis for the adjustments of prospective data.

The Group evaluated that the assessment techniques or material assumptions of ECLs of lease receivables had no material change in 2020 and 2019.

The following table details lease receivables based on the Group's provision matrix prepared using the simplified approach.

| | Normal or Less than 29 Days Past Due | 30-89 Days Past Due | 90-179 Days Past Due | 180-359 Days Past Due |
|--------------------|--|------------------------|-------------------------|--------------------------|
| Loss rate | 0.40% | 15.77% | 48.19% | 67.40% |
| Amount of exposure | \$ 21,286,984 | \$ 275,545 | \$ 141,677 | \$ 82,093 |
| Loss allowance | 85,769 | 43,448 | 68,273 | 55,330 |

September 30, 2020

December 31, 2019

| | Normal or Less than 29 Days Past Due | 30-89 Days Past Due | 90-179 Days Past Due | 180-359 Days Past Due |
|--------------------|--|------------------------|-------------------------|--------------------------|
| Loss rate | 0.42% | 24.55% | 44.19% | 67.20% |
| Amount of exposure | \$ 20,701,331 | \$ 143,475 | \$ 121,001 | \$ 98,112 |
| Loss allowance | 87,847 | 35,225 | 53,471 | 65,929 |

September 30, 2019

| | Normal or Less than 29 Days Past Due | 30-89 Days Past Due | 90-179 Days Past Due | 180-359 Days Past Due |
|--------------------|--|------------------------|-------------------------|--------------------------|
| Loss rate | 0.46% | 27.49% | 51.76% | 68.75% |
| Amount of exposure | \$ 20,093,749 | \$ 128,321 | \$ 114,648 | \$ 92,550 |
| Loss allowance | 91,800 | 35,281 | 59,344 | 63,632 |

Under Taishin Financial Holding and Taishin Bank's approval of asset quality, the minimum loss allowance of lease receivables shall be assessed in accordance with the Regulations of the Procedures for Banking Institutions to Evaluate Assets and Deal with Past Due/Non-performing Loans and Bad Debts issued by the MOF.

When lease receivables are recognized as bad debts because they cannot be recovered or 360 days or more past due, the relevant regulations will be followed for recourse actions

3) Credit risk hedging or mitigation policies

<u>Taishin Bank</u>

a) Collateral

Taishin Bank has a series of measures for credit granting to reduce credit risks. One of the procedures is asking for collateral from the borrowers. To secure the loans, Taishin Bank manages and assesses the collateral following the procedures that suggest the scope of collateralization and valuation of collateral and the process of disposition. In credit contracts, Taishin Bank stipulates the security mechanism for loans and the conditions and terms for collateral and offsetting to state clearly that Taishin Bank reserves the right to reduce granted limit, to reduce repayment period, to demand immediate settlement or to offset the debt of the borrowers with their deposits in Taishin Bank in order to reduce the credit risks.

The requirements for collateral for other non-credit businesses depend on the nature of the financial instruments. Asset-backed securities and similar financial instruments are required to provide a pool of underlying financial assets as collateral.

The following table details the information on the collateral of credit-impaired financial assets:

September 30, 2020

| | Gross Carrying Amount | Impairment under IFRS 9 | Proportion of Loans/ Collateral (Note) |
|---------------------------|--------------------------|----------------------------|---|
| Personal housing loans | \$ 10,725,627 | \$ 2,711,097 | 47.21% |
| Business guaranteed loans | 513,524 | 83,949 | 107.25% |
| Others | 7,708,480 | 2,096,579 | |
| Total | \$ 18,947,631 | \$ 4,891,625 | |

Note: The value of the collateral is calculated based on the latest accessible internal and external data.

December 31, 2019

| | Gro | oss Carrying Amount | npairment der IFRS 9 | Proportion of Loans/ Collateral (Note) |
|---------------------------|-----|------------------------|-------------------------|---|
| Personal housing loans | \$ | 4,341,485 | \$ 2,357,832 | 40.45% |
| Business guaranteed loans | | 548,126 | 92,733 | 108.26% |
| Others | | 6,474,127 | 1,607,981 | |
| Total | \$ | 11,363,738 | \$ 4,058,546 | |

Note: The value of the collateral is calculated based on the latest accessible internal and external data.

September 30, 2019

| | oss Carrying Amount | npairment der IFRS 9 | Proportion of Loans/ Collateral (Note) |
|---------------------------|------------------------|-------------------------|---|
| Personal housing loans | \$ 4,037,919 | \$ 2,118,564 | 39.29% |
| Business guaranteed loans | 511,690 | 93,762 | 109.00% |
| Others | 6,475,317 | 1,600,097 | |
| Total | \$ 11,024,926 | \$ 3,812,423 | |

Note: The value of the collateral is calculated based on the latest accessible internal and external data.

b) Credit risk concentration limits and control

To avoid the concentration of credit risks, Taishin Bank has included credit limits for the same person (entity) and for the same related-party corporation (group) based on the credit risk arising from loans, securities investment and derivative transactions.

Meanwhile, for trading and banking book investments, Taishin Bank has set a ratio, which is the credit limit of a single issuer in relation to the total security position. Taishin Bank has also included credit limits for a single counterparty and a single group.

In addition, to manage the concentration risk on each category of financial assets, Taishin Bank set credit limits based on type of industry, conglomerate, country and transactions collateralized by stock, and integrated within one system to supervise concentration of credit risk in these categories. Taishin Bank monitors concentration of each asset and controls various types of credit risk concentration in a single transaction counterparty, group, related-party group, industry, or nation.

c) Net settlement

Taishin Bank settles most of its transactions at gross amounts. For further reduction of credit risks, settlement netting is used for some counterparties or some circumstances where the transactions with counterparties are terminated due to defaults.

d) Other credit enhancements

To reduce its credit risks, Taishin Bank stipulates in its credit contracts the terms for offsetting to state clearly that Taishin Bank reserves the right to offset the borrowers' debt against their deposits in Taishin Bank.

4) Maximum exposure to credit risk and credit quality analysis

The maximum credit risk exposures of various financial instruments held by the Group are the same as per book amounts. Refer to the notes to the consolidated financial statements.

Part of financial assets held by the Group, such as cash and cash equivalents, due from the Central Bank and call loans to banks, financial assets at FVTPL, securities purchased under resale agreement, deposit refunds, operating deposits, and settlement deposits are exposed to low credit risks because the counterparties have rather high credit ratings.

Based on risk ratings, the amounts of maximum credit risk exposure (excluding the guarantees or other credit enhancements) at each stage of ECLs on September 30, 2020, December 31, 2019 and September 30, 2019 are as follows:

Taishin Bank

| | September 30, 2020 | | | | |
|--|--------------------------|-------------------------------|-----------------------------|----------------------------|--|

5) Situation of credit risk concentration

Prominent concentration of credit risks occurs when transaction parties for financial instruments prominently concentrate on one party, or on a few that are in similar business lines or exhibit similar economic characteristics. The characteristics of concentration of credit risks include the nature of business activities engaged by debtors. The Group has not engaged in transactions that involved a prominent concentration to one client or one transaction party, but has engaged in transaction parties of similar industry type or from similar region.

Information on loans with a significant concentration of credit risk is as follows:

e. Liquidity risk

1) The source and definition of liquidity risk

Liquidity risk is the potential loss that the Group may suffer due to inability to liquidate assets or raise enough funds in reasonable time to perform obligations when due and to meet the demands of assets growth. Sources of liquidity risk are as follows:

- a) Inability to fulfill funding gap due to asymmetric time and amount in cash inflows and outflows.
- b) Liabilities paid off in advance before maturity, inability to maintain liabilities at maturity or inability to acquire funds from the market.
- c) Inability to liquidate current assets at reasonable price or raising funds to fulfill funding gap with price higher than the reasonable one.

Except for the liquidity risks arising from normal operation, the Group's liquidity might be affected by events such as credit ratings being downgraded, credibility seriously damaged, financial system's system risk, causing customers to lack confidence and canceling deposits before maturity, call loans from banks being suspended, RS or RP transactions being deterred and liquidity of financial assets decreasing.

2) Liquidity risk management policy

Taishin Bank

The objective of liquidity risk management is to ensure that Taishin Bank can acquire funds at a reasonable price to pay off debt, perform obligations and contingent liabilities and satisfy demands required by business growth either in normal operation or under sudden, serious and unusual circumstances.

Taishin Bank has established policies on assets and liabilities management that stipulate related liquidity risk management rules and principles, stipulate clear distinction between accountability and responsibility of Asset and Liability Committee and management departments and regulate the limits of liquidity risk, risk measuring, risk monitoring and the scope and procedures of reporting to ensure that overall liquidity risk is within the limits of liquidity risk approved by the board of directors.

Basic principles of liquidity risk management policy are as follows:

- a) Principle of risk diversification: Taishin Bank should avoid excessively concentrating funds on the same maturity, instruments, currencies, regions, funding sources or counterparties.
- b) Principle of stability: Taishin Bank should follow stable strategies and pay attention to market and internal funding liquidity. For example, Taishin Bank should absorb the core deposits at appropriate time in order to prevent market volatility from affecting funding sources and thus lower dependence on unstable fund sources.
- c) Principle of maintaining appropriate asset liquidity: Market liquidity will indirectly affect funding liquidity. Therefore, Taishin Bank should make sure total assets could pay off total liabilities and maintain certain proportion of assets with high liquidity or collateral in order to finance funds and pay off current liabilities in critical and urgent time.
- d) Principle of matching asset and liability maturity: Taishin Bank should pay attention to the spread of maturity and liquidity of liquid assets and current assets should be sufficient to pay off current liabilities.

For urgent or sudden liquidity events, Taishin Bank has stipulated urgent fund dispatching handling plan as the highest principle for urgent events in order to integrate the Bank's resources quickly to resolve emergencies efficiently.

Taishin Securities B

Taishin Securities B's funding liquidity risk management incorporates funding sources, funding application and gap management. Key control points are as follows:

- a) Funding sources: Other than ensuring stability and risk diversification of funding sources, Taishin Securities B maintains sufficient credit limits in order to cope with volatility risk from unexpected funding supply.
- b) Funding application: When assessing investment income, Taishin Securities B ensures its liquidity and safety in order to cope with liquidity risk from unexpected funding needs.
- c) Gap management: Taishin Securities B implements funding gap management of various term structures in order to efficiently control unexpected fund dispatching.

Market liquidity risk includes on and off-balance sheet transactions. To make sure that market liquidity of positions with low liquidity is within tolerable range, Taishin Securities B stipulated in its risk management rules that it should carefully analyze and efficiently identify existing and potential market liquidity risk in order to operate in coordination with Taishin Securities B's business development and Taishin Financial Holding's overall risk appetite. Before promoting new products and business, Taishin Securities B should also scrutinize related operation rules and confirm related market liquidity risk.

The market liquidity management procedures and measurement methods of Taishin Securities B's major business are as follows:

- a) When closeout of a position with low amount of market transactions and low liquidity occurs, impairment is generated due to increase of bid-ask premium and extension of covered time. Therefore, liquidity reserve is drawn based on product categories in internal assessment to avoid biased assessment.
- b) The proportion limit is calculated as the sum of position, which is the amount of quoted and OTC stocks over one-day average volume, of the investment portfolio. The ratio is set to implement control.
- c) The volume of holding a single stock and the volume of accounting for investment portfolio is limited to a certain amount in order to implement control.
- d) The proportion of the volume of a single convertible bond issued to the volume of outstanding portfolio is limited to a certain amount in order to implement control.
- 3) Financial assets held to manage liquidity risk and maturity analysis

Financial assets held to manage liquidity risk:

The Group holds cash and cash equivalents, due from the Central Bank and banks and financial assets at FVTOCI and debt instruments at amortized cost held for the purpose of managing liquidity risk, in order to perform contractual obligations when due and meet the needs of urgent fund dispatching.

Maturity analysis:

Taishin Bank

a) Maturity analysis of non-derivative financial liabilities

Taishin Bank's non-derivative financial liabilities presented based on the residual maturities from the balance sheet date to the contract maturity date are as follows:

3) Taishin AMC

Credit receivable

In June 2005, Taishin AMC bought 12 accounts of credit loans from Taishin Bank for \$986,000 thousand with book value of \$2,951,353 thousand. According to the contract, the receivables of \$986,000 thousand will be paid off in seven installments by October 31, 2006.

In July 2006, Taishin AMC bought non-performing loans that consisted of cash card, credit card and small consumer loans from Taishin Bank for \$546,697 thousand with book value of \$9,494,153 thousand. According to the contract, June 30, 2006 was determined as the measurement date of this transaction, and the receivables of \$546,697 thousand will be paid off in two installments by September 15, 2006. In September 2006, Taishin AMC bought non-performing loans that consisted of cash card, credit card and small consumer loans from Taishin Bank for \$158,000 thousand with book value of \$5,490,584 thousand. According to the contract, August 31, 2006 was determined as the measurement date of this transaction, and the receivables of \$158,000 thousand will be paid off in two installments by October 31, 2006. The contract also stated that after 5 years from the measurement date, Taishin AMC authorized Taishin Bank with the rights to collect payments from debtors and paid 30% of loans collected as service fees and 40% of the remaining 70% of loan collected as commission. The abovementioned service contracts were terminated on September 30, 2011 and August 31, 2011, respectively. From July 1, 2011 and September 1, 2011, Taishin AMC authorized Taishin Bank with the rights to collect payments from debtors and paid 32.5% of loans collected as service fees.

46. CONTINGENT LIABILITIES AND COMMITMENTS

In addition to those mentioned in Note 9 and Note 43, Taishin Financial Holding and its subsidiaries have contingent liabilities and commitments as follows:

| | September 30, 2020 | December 31, 2019 | September 30, 2019 |
|-------------------------------------|-----------------------|----------------------|-----------------------|
| Trust liabilities | \$ 467,981,973 | \$ 387,479,029 | \$ 365,932,967 |
| Securities custody payable | 24,687,361 | 15,993,710 | 16,026,146 |
| Unpaid equipment purchase contracts | 1,346,300 | 1,158,816 | 1,320,328 |

To strengthen the business competitiveness of the Group, the Company planned to acquire 100% of Prudential Life Insurance Company of Taiwan Inc. ("Prudential Life Insurance") and signed the share purchase agreement with Prudential International Insurance Holdings, Ltd, the parent company of Prudential Life Insurance, on August 11, 2020. After regulatory approvals are obtained and closing conditions set forth in the agreement are satisfied, the Company will complete settlement and pay the base consideration of \$5,500,000 thousand on the settlement day determined by both parties. According to the share purchase agreement, there is a price adjustment mechanism, and, under which the Company will pay additional consideration of up to \$3,000,000 thousand in the second anniversary of the signing date if price adjustment conditions are met.

If the Company successfully acquires Prudential Life Insurance, the Group will officially engage in the life insurance sector and complete the third business engine as a financial holding company. However, the transaction is subject to approvals from relevant regulatory authorities, and, therefore the estimate of the financial effect cannot be made at this point in time.

Note a: Non-performing loans are in accordance with the Regulations of the Procedures for Banking Institutions to Evaluate Assets and Deal with Past Due/Non-performing Loans and Bad Debts issued by MOF. Non-performing loans of credit cards are defined in the Letter issued by the Banking Bureau on July 6, 2005 (Ref. No. Jin-Guan-Yin (4) 0944000378).

- Note b: Non-performing loans ratio = Non-performing loans ÷ Loans Non-performing loans of credit card ratio = Non-performing loans of credit cards ÷ Accounts receivable
- Note c: Coverage ratio of allowances for loan losses = Allowances for loan losses ÷ Non-performing loans Coverage ratio of allowance for loan losses of credit card = Allowance for loan losses of credit card ÷ Non-performing loans of credit cards
- Note d: Mortgage loans are for applicants to build or repair the buildings owned by the applicants, their spouses or their minor children. These applicants provide their buildings as collaterals and assign the right on mortgage to financial institutions.
- Note e: Credit loans are defined in the Letter issued by the Banking Bureau on December 19, 2005 (Ref. No. Jin-Guan-Yin (4) 09440010950), excluding credit loans of credit cards and cash cards.
- Note f: The others of consumer financial business are defined as secured or unsecured consumer financial business excluding mortgage loans, cash cards, credit loans and credit cards.
- Note g: In accordance with the Letter issued by the Banking Bureau on August 24, 2009 (Ref. No. Jin-Guan-Yin 09850003180), accounts receivable without recourse are classified as non-performing loans if not compensated by the factor or insurance company within three months.

52. DISCLOSURES UNDER STATUTORY REQUIREMENTS

- a. Information to be disclosed according to Article 22 of the Rules Governing the Audit of Financial Statements by Certified Public Accountants is as follows:
 - 1) Material transactions are summarized as follows:

| No. | Item | Explanation |
|-----|--|-------------|
| 1 | Securities of Taishin Financial Holding's investees acquired or disposed of | None |
| | at costs or prices of at least NT\$300 million or 10% of the paid-in capital | |
| 2 | Acquisition or disposal of individual real estate at costs of at least NT\$300 million or 10% of the paid-in capital | Table 2 |
| 3 | Discounts of service charges for related parties amounting to at least \$5 million | None |
| 4 | Receivables from related parties amounting to at least NT\$300 million or 10% of the paid-in capital | Table 5 |
| 5 | Sales of NPL from subsidiaries | None |
| 6 | Authorities securitized instruments and related assets which are in accordance with the Statute for Financial Assets Securitization and the Statute for Real Estate Securitization | None |
| 7 | Other transactions that may have significant impact on the decision made by the financial statement users | None |

2) Information on Taishin Financial Holding's subsidiaries:

| No. | Item | Explanation |
|-----|--|----------------|
| 1 | Financings provided | Table 1 (Note) |
| 2 | Endorsements/guarantees provided | Note |
| 3 | Marketable securities held | Table 3 (Note) |
| 4 | Marketable securities acquired or disposed of at costs or prices of at least NT\$300 million or 10% of the paid-in capital | Note |
| 5 | Derivative transactions of investees | Notes 9 and 43 |

Note: None, or not required to disclose No. 1 to 4 if the investee is a bank, insurance or security company.

3) Names, locations, and related information of investees: Not applicable for review.

4) Information of investment in mainland China, significant commitments and contingencies, significant losses and subsequent events is summarized as follows:

| No. | Item | Explanation |
|-----|---|-------------|
| 1 | Information of investment in mainland China | Table 4 |
| 2 | Significant commitments and contingencies | Note 46 |
| 3 | Significant losses | None |
| 4 | Subsequent events | None |

- 5) Information on major shareholders: The names, numbers of shares held, and shareholding percentages of shareholders who hold 5% or more of the Company's equity: None.
- b. According to the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, a company should disclose business relationships and material transactions in consolidation. Refer to Table 5.

53. SEGMENT INFORMATION

a. General information

The report of Taishin Financial Holding and its subsidiaries is the same as the report for internal use of policy makers. Main policy makers distribute the resources to the operation department and evaluate its efficiency. Taishin Financial Holding's main policy makers are the board of directors.

Interdepartmental transactions are normal transactions. Taishin Financial Holding consolidates all its subsidiaries, and writes off interdepartmental transaction gains and losses. The subsidiaries evaluate their own operation efficiency.

The operation departments of Taishin Financial Holding are subsidiaries of bank business, securities business and other business, respectively. The board of directors, the main policy maker, reviews company operation result, distributes resources, and evaluates operation efficiency.

b. Financial information by region

The operating income of the Groups' overseas departments is not over 10% of the Group's consolidated operating income. In addition, their assets are not over 10% of the Group's consolidated total assets either. Thus, no financial information by region is required.

The net revenue and gains of the Group attributed to all countries other than the ROC are not over 10% of the Group's consolidated net revenue and gains.

c. Information on major customers

Taishin Financial Holding and its subsidiaries do not have major customers that each account for 10% or more of the Group's consolidated operating income.

54. OTHER ITEMS

Except for the impact arising from the volatility of the stock and bond markets, which resulted in larger-than-normal temporary fluctuations in the comprehensive income of the Group's investment position during the nine months ended September 30, 2020, in which the Group implemented the government's relief measures, there was no significant impact arising from the COVID-19 pandemic on the Group's overall operations. In addition, for those customers affected by the pandemic, the Group offered extensions for loan repayment or adjustments to installment repayment amounts, and these were included in the consideration of significant accounting estimates used in the analysis of asset impairment.

| | | | | | | | | | | | | | | | | |

Note 1: Column is numbered as follows:

a. Parent: 0.

b. Subsidiaries are numbered starting from 1.

Note 2: If receivables from related companies, receivables from related parties, contracts between shareholders, advance payments, payment on behalf, etc. have financing type, they should fill into this column.

The maximum balance of financings provided in the current year. Note 3:

Note 4: The financing type column should be business transaction or short-term financing.

Note 5: If the financing type is a business transaction, the amount of business transaction should be filled. The amount of business transaction refers to the amount between the lender and the borrower in the recent year.

If the financing type is a short-term financing, the reason for the financing and the use of the financing should be specified, such as repayment of loans, purchase of equipment, business turnover, etc. Note 6:

Note 7: By following the procedures of financing provided, set the company's financing limit for each borrowing company. Disclose the calculation method of setting financing limit and aggregate financing limit for each borrowing company.

Note 8: If public company follows the Article 14(a) of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies, it will resolve the allocation of funds within the board of directors. Although the amount has not been allocated, the company needs to announce the amount resolved by the board of directors, in order to bear the risk of disclosure; after the fund has been repaid, the company should disclose the balance after repayment, in order to reflect on the adjustment of risk. If the public company follows the Article 14(b) of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies, after the resolution of board of directors, enables the chairman, within a certain monetary limit resolved by the board of directors, and within a period not exceeding one year, to give loans in installments or to make a revolving credit line available for the borrower to draw down, the company should still use the resolution amount and limit passed in the board of directors as the publicly disclosed balance. After the fund has been partially repaid, considering that there will be more allocation in the process, the company should use the resolution amount and the limit passed in the board of directors as the publicly disclosed balance.

Note a: Business relationships between the parent and subsidiaries are numbered as follows:

1. Parent: 0

2. Subsidiaries are numbered starting from 1.

Note b: Relationship between the main party and the counterparty is numbered as follows:

- 1. Parent to subsidiary.
- 2. Subsidiary to parent.
- 3. One subsidiary to another subsidiary.
- 4. Subsidiary to sub-subsidiary.
- Note c: Percentage of consolidated operating revenues or consolidated total assets: If the account is a balance sheet account, it was calculated by dividing the ending balance into consolidated total assets; if the account is an income statement account, it was calculated by dividing the interim cumulative balance into consolidated operating revenues.
